

SANDING DISCS - VSM ABRASIVES CORPORATION 12" (30.5CM) DISCS, 36 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Discs](#)

Resinal Metalite Pressure-Sensitive Discs ... Fast Off/On Disc And Grit Change

Lay flatter, stick smoother than glue-on type with no glue lumps, giving much longer disc life with no high spots to wear down first. Edges stay down stopping "catch-and-tear" problems. Much easier and faster to change, with no cleanup between grit changes, and no cleanup of the sander. Special surface, resin bonded to the heavy cloth backing, prevents loading up of disc and drag-off of grit, so stays cutting longer and faster without clogging. For coarse-to-fine metal finishing, and all wood finishing. Sold in packs of 3 discs each.

Attributes

- Name: [VSM ABRASIVES CORPORATION 12" \(30.5CM\) DISCS, 36 GRIT](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)

Safety Instruction Guide for VSM Abrasives Corporation 12" Sanding Discs, 36 Grit

Introduction

Thank you for choosing VSM Abrasives Corporation 12" Sanding Discs, 36 Grit. This guide provides essential safety instructions and precautions to ensure safe and effective use of the product. Please read this guide carefully before using the sanding discs.

General Safety Guidelines

- Ensure safe use of the sanding discs by following these guidelines:
 - Always use the product in accordance with the manufacturer's instructions.
 - Keep the sanding discs out of reach of children and vulnerable individuals.
 - Inspect the sanding discs for damage before use. Do not use if damaged.
 - Use appropriate personal protective equipment (PPE) such as safety goggles and dust masks.
 - Store the sanding discs in a cool, dry place away from direct sunlight.

Specific Safety Precautions for Use

- To avoid potential hazards while using the sanding discs, follow these precautions:
 - Avoid using the sanding discs on materials that may create hazardous dust or particles.
 - Do not apply excessive pressure while sanding; let the tool do the work.
 - Ensure the sander is securely attached to the sanding disc before use.
 - Do not exceed the recommended speed for the sander when using the sanding discs.
 - Avoid sanding near flammable materials or in explosive atmospheres.
 - Always maintain a clean workspace to prevent accidents.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the sanding discs:

1. Preparation:

- Ensure the sander is unplugged before changing the sanding disc.
- Clean the sander's backing pad to remove any debris or old adhesive.

2. Installation:

- Align the sanding disc with the backing pad of the sander.
- Press down firmly to ensure the disc adheres properly to the pad.
- Ensure there are no wrinkles or air bubbles under the disc.

3. Usage:

- Plug in the sander and turn it on at a low speed to ensure the disc is secure.
- Gradually increase the speed to the recommended setting for your specific application.
- Move the sander smoothly across the surface, applying even pressure.
- Regularly check the sanding disc for wear and replace as necessary.

Disposal Instructions

- Proper disposal of the sanding discs is important for environmental safety:
 - Dispose of used sanding discs in accordance with local regulations.
 - Do not dispose of sanding discs in regular household waste if they contain hazardous materials.
 - Consider recycling options if available in your area.

Contact Information for Further Support

- For any safety inquiries or support regarding the VSM Abrasives Corporation sanding discs, please refer to the manufacturer's contact details found on the product packaging or the official website.

Conclusion

By following these safety instructions, you can ensure a safer and more effective experience with VSM Abrasives Corporation 12" Sanding Discs, 36 Grit. Always prioritize safety and proper usage to maximize the performance of your sanding discs. Thank you for your attention to these important guidelines.
