

SANDING DISCS - VSM ABRASIVES CORPORATION 12" (30.5CM) DISCS, 320 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Discs](#)

Resinal Metalite Pressure-Sensitive Discs ... Fast Off/On Disc And Grit Change

Lay flatter, stick smoother than glue-on type with no glue lumps, giving much longer disc life with no high spots to wear down first. Edges stay down stopping "catch-and-tear" problems. Much easier and faster to change, with no cleanup between grit changes, and no cleanup of the sander. Special surface, resin bonded to the heavy cloth backing, prevents loading up of disc and drag-off of grit, so stays cutting longer and faster without clogging. For coarse-to-fine metal finishing, and all wood finishing. Sold in packs of 3 discs each.

Safety Instruction Guide for VSM Abrasives Corporation 12" (30.5CM) Discs, 320 Grit

Introduction

Thank you for choosing VSM Abrasives Corporation 12" (30.5CM) Discs, 320 Grit. This guide provides important safety instructions to ensure safe and effective use of the sanding discs. Please read this document carefully before using the product.

General Safety Guidelines

- Always use the sanding discs in accordance with the manufacturer's instructions.
- Ensure that the sanding discs are compatible with your sander.
- Keep the workspace clean and free of clutter to prevent accidents.
- Use personal protective equipment (PPE) such as safety goggles, masks, and gloves to protect against dust and debris.
- Be aware of your surroundings and ensure that bystanders are at a safe distance while using the product.
- Regularly inspect the sanding discs for any signs of damage or wear before use.

Specific Safety Precautions for Use

- **Risk of Injury:** Always operate the sander at the recommended speed to avoid excessive wear on the sanding discs and potential injury.
- **Dust Exposure:** Use a dust extraction system or wear a suitable mask to minimize inhalation of dust particles.
- **Catching and Tearing:** Ensure that the edges of the discs are properly adhered to prevent catching and tearing during use.
- **High Spots:** Avoid using the discs on uneven surfaces to prevent premature wear and potential safety hazards.
- **Children and Vulnerable Groups:** Keep the product out of reach of children and ensure that it is used only by individuals who are trained and competent in its use.

Instructions for Installation and Usage

1. Installation:

- Ensure that the sander is unplugged before installing the sanding disc.
- Clean the sander's backing pad to remove any debris or old adhesive.
- Align the sanding disc with the backing pad and press firmly to ensure proper adhesion.
- Check that the disc is securely attached before plugging in the sander.

2. Usage:

- Start the sander at a low speed and gradually increase to the recommended speed for the material being worked on.
- Apply even pressure while sanding to achieve a consistent finish.
- Avoid excessive pressure, as this can lead to overheating and premature wear of the disc.
- Change sanding discs regularly to maintain optimal performance and safety.
- After use, turn off the sander and unplug it before removing the sanding disc.

Disposal Instructions

- Dispose of used sanding discs in accordance with local regulations.
- Do not dispose of sanding discs in regular household waste.
- Check with local waste management authorities for proper disposal methods.
