# Safety Instruction Guide for Tapered Rolls Merit Abrasive Products

## Introduction

Thank you for choosing the Tapered Rolls from Merit Abrasive Products. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read and follow these guidelines carefully to minimize risks and ensure optimal performance.

## General Safety Guidelines

- Ensure safe use of the product by following these safety guidelines:
  - Always use personal protective equipment (PPE), including safety goggles, gloves, and a dust mask.
  - Keep the work area clean and welllit to avoid accidents.
  - Ensure that the tool or equipment used with the tapered rolls is compatible and in good working condition.
  - Do not exceed the maximum speed of 18,000 rpm during operation.
  - Be aware of the potential hazards associated with using abrasive products, such as dust inhalation and skin irritation.
- Special considerations for vulnerable groups:
  - Keep this product out of the reach of children.
  - Ensure that only trained individuals operate equipment using this product.

## Specific Safety Precautions for Use

- Before using the tapered rolls, please observe the following precautions:
  - Inspect the product for any damage before use. Do not use if damaged.
  - Always secure the workpiece to prevent movement while working.
  - Avoid excessive pressure on the abrasive roll to prevent breakage and ensure a smooth finish.
  - Use the product only for its intended purpose, which is to smooth and shape materials in tight spaces.
  - Store the product in a cool, dry place away from direct sunlight and moisture.

## Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the tapered rolls:
  1. Ensure that the tool is powered off and disconnected from the power source before installation.
  2. Select the appropriate tapered roll based on your project requirements (240 grit).
  3. Insert the tapered roll into the tool's mandrel securely.
  4. Adjust the tool settings to the desired speed, ensuring it does not exceed 18,000 rpm.
  5. Power on the tool and allow the tapered roll to reach full speed before making contact with the workpiece.
  6. Apply light, even pressure while moving the tapered roll across the material.
  7. Regularly check the work area for any debris or hazards while in use.
  8. After completing the task, power off the tool and allow it to cool before removing the tapered roll.

## **Disposal Instructions**

- Dispose of the tapered rolls responsibly:
  - Follow local regulations for the disposal of abrasive products.
  - Do not dispose of the product in regular household waste.
  - Consider recycling options if available in your area.

## **Contact Information for Further Support**

- For any safety inquiries or additional support, please reach out to the designated EBased contact for this product. Ensure you have the product details on hand for a more efficient response.

By adhering to these safety instructions, you can ensure a safer working environment while using the Tapered Rolls from Merit Abrasive Products. Thank you for your attention to these important safety guidelines.
