## SAFETY INSTRUCTIONS

### Introduction

Thank you for choosing the CYLINDER ROLLS MERIT ABRASIVE PRODUCTS ABRASIVE CYLINDER ROLL 60 GRIT. This product is designed for shaping and polishing in tight spaces. To ensure safe and effective use, please read and follow these safety instructions carefully.

### General Safety Guidelines

- Always use personal protective equipment (PPE) such as safety goggles, gloves, and a dust mask when using abrasive products.
- Ensure that the work area is clean and welllit to avoid accidents.
- Keep all tools and materials organized to prevent tripping or falling.
- Do not exceed the maximum speed of 20,000 rpm while using the abrasive rolls.
- Always inspect the product before use for any signs of damage or wear.
- Ensure that the product is suitable for the material you are working on to prevent hazards.

### Specific Safety Precautions for Use

- Use the abrasive rolls only for their intended purpose. They are designed for shaping and polishing, not for cutting or other uses.
- Avoid using the product on materials that may produce hazardous dust or debris.
- Do not use the abrasive rolls near flammable materials or in explosive atmospheres.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Keep out of reach of children and pets to prevent accidental injury.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that the power tool you will be using is compatible with the CYLINDER ROLLS.
- Disconnect the power tool from the power source before installation.

#### 2. Installation:

- Choose the appropriate size mandrel for the abrasive roll.
- Slide the abrasive roll onto the mandrel until it is securely in place.
- Tighten the mandrel securely according to the manufacturer's instructions.
- Reconnect the power tool to the power source.

#### 3. Usage:

- Start the power tool at a low speed to ensure the abrasive roll is properly seated.
- Gradually increase to the desired speed, ensuring you do not exceed 20,000 rpm.
- Apply light pressure when using the abrasive roll; excessive pressure can cause damage to the roll and the workpiece.
- Move the tool steadily and avoid staying in one spot for too long to prevent overheating.

#### 4. PostUse:

- Turn off the power tool and disconnect it from the power source.

- Allow the abrasive roll to cool down before handling.
- Inspect the roll for wear and replace if necessary.

## **Disposal Instructions**

- Dispose of used abrasive rolls in accordance with local regulations.
- Do not dispose of in household waste. Check for recycling programs in your area that accept abrasive materials.
- Ensure that all components are disposed of safely to prevent environmental harm.

## **Contact Information for Further Support**

For any inquiries regarding safety, product usage, or to report unsafe products, please contact your local authorities or visit the EU Safety Gate platform for updates on product recalls and safety alerts.

Thank you for prioritizing safety while using the CYLINDER ROLLS MERIT ABRASIVE PRODUCTS. Your adherence to these guidelines helps ensure a safe working environment.
