

STEEL SAFETY PLUNGER W/ SPRING FOR GLOCK® - LIGHTNING STRIKE STEEL SAFETY PLUNGER W/SPRING

[Handgun Parts](#) > [Safety Parts](#) > [Safety Plungers](#)

If you're already committed to improving your Glock pistols with other Lightning Strike products, like the company's lightened steel striker, then why stop there? Continue building on perfection by adding in the company's Steel Safety Plunger, which further improves reliability and accuracy. In making the enhanced safety plunger, Lightning Strike starts with solid 17-4 stainless steel, which is precision-machined and heat-treated to provide the tightest possible tolerances and improved durability. The construction and machining put into this component makes it almost impervious to environmental conditions and also helps to provide a smoother trigger pull on your Glock handgun. Each Lightning Strike Products Steel Safety Plunger ships with a Wolff reduced-power safety-plunger spring, and for those looking to take their stock pistol up a notch, the plunger is compatible with the OEM Glock steel striker as well. Does Not Fit Gen 5

Attributes

- Name: [LIGHTNING STRIKE STEEL SAFETY PLUNGER W/SPRING](#)
- Manufacturer: [LIGHTNING STRIKE](#)
- Product no.: 642000024
- Mfr. No.: LS7930

Safety Instruction Guide for STEEL SAFETY PLUNGER W/ SPRING FOR GLOCK® LIGHTNING STRIKE

Introduction

Thank you for choosing the Steel Safety Plunger with Spring for your Glock® handgun. This guide provides essential safety instructions to ensure the safe use and installation of this product. Please read this document carefully to understand how to use this component effectively and safely.

General Safety Guidelines

- Ensure that the plunger is compatible with your Glock model (not suitable for Gen 5).
- Always handle firearms with care and follow standard safety practices.
- Store the product in a cool, dry place away from children and unauthorized users.
- Be aware of local laws and regulations regarding firearm modifications.
- Regularly inspect the plunger for wear or damage before use.

Specific Safety Precautions for Use

- Do not attempt to install the plunger if you are unfamiliar with firearm disassembly and assembly.
- Always ensure the firearm is unloaded before beginning installation.
- Wear safety glasses during installation to protect your eyes from any potential debris.
- Avoid using excessive force during installation to prevent damage to the firearm or the plunger.
- If you experience any issues during installation or use, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure the Glock is unloaded and point the muzzle in a safe direction.
- Gather necessary tools: a punch tool, hammer, and safety glasses.

2. Disassembly

- Remove the slide from the frame according to the Glock owner's manual.
- Take out the existing safety plunger by gently tapping it out with a punch tool.

3. Installation of the Steel Safety Plunger

- Insert the new Steel Safety Plunger into the designated slot.
- Use a punch tool to gently tap the plunger into place. Ensure it is seated properly.
- Install the Wolff reducedpower safety plunger spring provided with the product.

4. Reassembly

- Reattach the slide to the frame, ensuring all components are aligned correctly.
- Perform a function check to ensure the plunger operates smoothly.

5. Usage

- After installation, regularly check the plunger's operation during routine maintenance.
- If you notice any irregularities, do not use the firearm until it has been inspected by a qualified

professional.

Disposal Instructions

- Dispose of any old or damaged components in accordance with local waste disposal regulations.
- Do not discard in regular household waste; check for appropriate recycling or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the Steel Safety Plunger, please refer to the manufacturer's website or customer support channels for assistance.

Thank you for your attention to these safety guidelines. Your commitment to safety helps ensure a better experience with your Glock® and its enhancements.
