

KG1 CARBON REMOVER - KG PRODUCTS KG1 CARBON REMOVER 4OZ

[Gun Cleaning & Chemicals](#) > [Solvents & Degreasers](#) > [Bore Solvents](#)

Essential Cleaner Extends Firearm Life & Improves Function

Breaks down the carbon residue present in the bore and breech after firing. Proper use melts away all traces of carbon including carbon stains left on revolver cylinder faces, and caked-on carbon in blackpowder bores. All KG liquids include a convenient twist-open, pinpoint applicator spout with snap-top cap to help prevent spills and conserve product.

KG1 Carbon Remover Safety Instructions

Introduction

Thank you for choosing KG1 Carbon Remover by KG Products. This product is designed to effectively break down carbon residue found in the bore and breech of firearms after firing. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the product in a wellventilated area to avoid inhalation of fumes.
- Keep the product out of reach of children and pets.
- Avoid contact with skin and eyes. If contact occurs, rinse immediately with plenty of water and seek medical attention if irritation persists.
- Do not ingest. If swallowed, seek immediate medical attention.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Dispose of any unused product in accordance with local regulations.

Specific Safety Precautions for Use

- Use protective gloves and eyewear when handling the product to minimize exposure.
- Ensure that the firearm is unloaded and pointed in a safe direction before applying the product.
- Do not mix with other cleaning agents or chemicals.
- Test on a small, inconspicuous area of the firearm before widespread application to ensure compatibility.
- Follow the manufacturer's recommendations for the frequency of use to avoid potential damage to firearm finishes.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe position.
- Shake the bottle gently before use to mix the contents.

2. Application:

- Remove the snaptop cap from the applicator spout.
- Apply a small amount of KG1 Carbon Remover directly onto the affected areas (bore, breech, and cylinder faces).
- Allow the product to sit for a few minutes to penetrate and dissolve the carbon residue.

3. Cleaning:

- Use a clean cloth or patch to wipe away the dissolved carbon.
- For stubborn residue, repeat the application as necessary.
- After cleaning, ensure to remove any excess product with a dry cloth.

4. Final Steps:

- Replace the snaptop cap securely after use to prevent spills.
- Store the product safely as per the storage guidelines.

Disposal Instructions

- Dispose of any unused or expired product in accordance with local hazardous waste disposal regulations.
- Do not pour down drains or dispose of in regular trash.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of KG1 Carbon Remover, please refer to the contact information provided on the product packaging or visit our website for additional resources.

Please remember to report any unsafe products or incidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform. Your safety is our priority.
