

KG2 BORE POLISH - KG PRODUCTS KG2 BORE POLISH 4OZ

[Gun Cleaning & Chemicals](#) > [Solvents & Degreasers](#) > [Bore Solvents](#)

Essential Cleaner & Protectant Extends Firearm Life & Improves Function

Mild abrasive gently polishes the bore clean, but leaves embedded copper in the steel's micro fractures as recommended by top barrel makers. Proper use leaves your prized bore even smoother than before and eliminates the need for fouling shots. All KG liquids include a convenient twist-open, pinpoint applicator spout with snap-top cap to help prevent spills and conserve product.

KG2 Bore Polish Safety Instructions

Introduction

Thank you for choosing KG2 Bore Polish by KG Products. This product is designed to gently polish the bore of your firearm while preserving the integrity of the barrel. Please follow these safety instructions to ensure safe and effective use.

General Safety Guidelines

- Always read the product label and safety instructions before use.
- Keep out of reach of children and vulnerable individuals.
- Store in a cool, dry place away from direct sunlight and heat sources.
- Ensure proper ventilation when using this product.
- Do not mix with other chemicals or products unless specified.
- In case of accidental ingestion, seek medical attention immediately.
- For skin contact, wash thoroughly with soap and water.

Specific Safety Precautions for Use

- Use gloves and eye protection when handling the product to avoid skin and eye irritation.
- Avoid inhaling vapors; use in a wellventilated area.
- Do not use on hot surfaces or near open flames.
- Ensure the firearm is unloaded and pointed in a safe direction before application.
- Avoid contact with sensitive surfaces, such as plastics and painted finishes.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Clean the bore with a suitable solvent to remove any existing fouling.

2. Application:

- Twist the applicator spout open.
- Apply a small amount of KG2 Bore Polish directly to a cleaning patch or brush.
- Insert the patch or brush into the bore.

3. Polishing:

- Gently move the patch or brush back and forth through the bore.
- Allow the polish to work for a few minutes to let it penetrate the micro fractures in the steel.

4. Cleaning:

- After polishing, use a clean patch to remove excess product from the bore.
- Follow up with a suitable bore cleaner to remove any residue.

5. Final Check:

- Inspect the bore visually to ensure it is clean and polished.
- Store the product securely after use.

Disposal Instructions

- Dispose of any unused product and cleaning materials in accordance with local regulations.
- Do not pour down drains or dispose of in regular trash.
- Check for local hazardous waste disposal programs for proper disposal.

Contact Information for Further Support

For any questions or concerns regarding the use of KG2 Bore Polish, please refer to the product label or contact the manufacturer directly for assistance.
