

BORE BRUSHES - OTIS BRASS BORE BRUSHES, 10 PAK FITS .243/.25/6MM/6.5MM

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Bronze Or Nylon Bristles Scrub Bores Clean Without Scratching

Hard-scrubbing brushes strip fouling quickly, leaving the bore sparkling clean. Premium-quality phosphor bronze bristles have twice the fill and a much longer life than generic brushes, with bristles all the way to the tip. More bristles mean fast, thorough cleaning. Stem is cold welded to the looped-and-wound brass core to withstand up to 200 lbs. of pull force without separating. All models are threaded to fit standard 8-32 rods and precision machined to ensure a clean starter thread so the brush screws on the rod easily. Caliber stamped on the stem, so you can be sure you always have the correct-size brush for your gun. Some calibers available with nylon bristles for jobs requiring less aggressive scrubbing action. Universal length fits both rifle and handgun bores.

Attributes

- Name: [OTIS BRASS BORE BRUSHES, 10 PAK FITS .243/.25/6MM/6.5MM](#)
- Manufacturer: [OTIS](#)
- Product no.: 668000030

Safety Instruction Guide for OTIS Brass Bore Brushes

Introduction

Thank you for choosing OTIS Brass Bore Brushes. This guide provides essential safety instructions and usage information to ensure your safe and effective use of our product. Please read this guide carefully before using the bore brushes.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Regularly inspect the bore brushes for wear and damage before use.
- Keep the bore brushes out of reach of children to prevent accidental injury.
- Use the product only for its intended purpose of cleaning firearm bores.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear safety goggles when using bore brushes to protect your eyes from debris.
- Use the brushes with appropriate cleaning rods that meet the standard 832 threads.
- Avoid excessive force when using the brushes to prevent damage to the bore or brush.
- Ensure that the firearm is unloaded and pointed in a safe direction before cleaning.
- Do not use the brushes on firearms that are not compatible with the specified calibers.

Instructions for Installation and Usage

1. Preparing the Bore Brush:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Select the correct caliber bore brush for your firearm.

2. Attaching the Bore Brush:

- Thread the bore brush onto a standard 832 cleaning rod.
- Ensure the brush is securely attached before use.

3. Cleaning the Bore:

- Insert the bore brush into the firearm's bore.
- Use a smooth, steady motion to scrub the bore, applying gentle pressure.
- Withdraw the brush from the bore after a few strokes.
- Repeat as necessary until the bore is clean.

4. PostCleaning:

- Inspect the bore brush for wear after use.
- Clean the brush and rod with a suitable solvent if necessary.
- Store the bore brushes in a safe, dry place, preferably in their individual plastic tubes.

Disposal Instructions

- Dispose of worn or damaged bore brushes in accordance with local waste disposal regulations.
- Do not dispose of the brushes in fire or extreme heat as this may cause harmful fumes.

Contact Information for Further Support

For any inquiries or further assistance regarding the OTIS Brass Bore Brushes, please refer to the manufacturer's contact information provided with the product packaging or on our official website.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your OTIS Brass Bore Brushes. Thank you for your attention to safety.
