## Scrubs & Mops Bore In One Pass For Fast, Easy, Thorough Cleaning

Dual-action brush scrubs and swabs in one step to make bore cleaning faster and easier than it's ever been. Integrated Dual Technology combines deep-scrubbing bronze bristles and an absorbent cotton mop on one brush so you can thoroughly clean rifle and pistol bores in one breech-to-muzzle pass. Non-corroding brass core ensures the IDT brush won't scratch your gun's rifling, while dense, non-scratch phosphor bronze bristles loosen fouling and the gentle 100% cotton mop wipes the bore clean of contaminated solvent and loosened fouling. Speeds up the tedious job of cleaning lever-action rifles and other guns with limited breech access. Perfect for fast cleaning in the field; 8-32 tpi threads fit the Memory Flex rods in Otis compact cleaning kits, as well as standard bench cleaning rods. Available in popular rifle and handgun calibers: .243/.25/.257/6.35/5.56mm/5.7mm/6mm/6.5mm, .308/7.62, and .357/.38/9mm.

## Attributes

- Name: [OTIS IDT BORE BRUSH, .357/.38/9MM](#)
- Manufacturer: [OTIS](#)
- Product no.: 668000043
- Mfr. No.: FG-338-IDT-5
- Caliber: 35 Caliber (.358)
- Material: Bronze
- Quantity: 5
- Delivery weight: 0.068kg
- Shipping height: 15mm
- Shipping width: 130mm
- Shipping length: 246mm
- UPC: 014895033852

# IDT Bore Brush Safety Instructions

## Introduction

Thank you for choosing the IDT Bore Brush for your firearm cleaning needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before use.

## General Safety Guidelines

- Always ensure that the firearm is unloaded before cleaning.
- Keep the bore brush out of reach of children and vulnerable individuals.
- Use the bore brush only for its intended purpose: cleaning firearm bores.
- Regularly inspect the bore brush for wear or damage before each use.
- Store the bore brush in a safe, dry place when not in use.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

## Specific Safety Precautions for Use

- Avoid using excessive force when cleaning to prevent damage to the firearm's rifling.
- Ensure that the bore brush is securely attached to the cleaning rod before use.
- Do not use the bore brush with solvents or cleaning agents that are not recommended by the manufacturer.
- Always wear safety glasses to protect your eyes from debris while cleaning.
- Dispose of any used cleaning materials according to local regulations.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary cleaning supplies, including the IDT Bore Brush, cleaning rod, and any solvents.

### 2. Installation

- Attach the IDT Bore Brush to the cleaning rod using the 832 tpi male threads.
- Ensure that the brush is securely fastened to prevent detachment during cleaning.

### 3. Usage

- Insert the bore brush into the firearm's bore.
- Use a smooth, steady motion to scrub the bore from breech to muzzle.
- Repeat the process as needed to ensure thorough cleaning.
- After cleaning, use a cotton mop to remove any residue and solvent from the bore.

### 4. PostCleaning

- Inspect the bore for any remaining fouling or debris.
- Clean the bore brush with a suitable solvent and allow it to dry before storage.

## Disposal Instructions

- Dispose of the bore brush responsibly when it reaches the end of its usable life.

- Follow local regulations for the disposal of cleaning materials and any hazardous waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the IDT Bore Brush or its usage, please refer to the manufacturer's contact details provided on the product packaging or visit the manufacturer's website.
