PROFESSIONAL PISTOL CLEANING KIT FOR GLOCKS® Safety Instruction Guide

Introduction

Thank you for choosing the Professional Pistol Cleaning Kit for Glock®. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the kit to maintain your Glock pistol.

General Safety Guidelines

- Always keep the cleaning kit out of reach of children.
- Use the kit only for its intended purpose: cleaning and maintaining Glock pistols.
- Ensure that your pistol is unloaded before starting any cleaning procedure.
- Do not use any cleaning products that are not included in the kit or recommended by the manufacturer.
- Store the cleaning kit in a cool, dry place away from direct sunlight and heat sources.
- Regularly check the kit for any damaged or worn components before use.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Potential risks include injury from sharp tools, exposure to cleaning solvents, and accidental discharge of a loaded firearm.
- **Avoiding Hazards:**
 - Always handle tools with care, ensuring that they are used as intended.
 - Use gloves when handling solvents or lubricants to prevent skin irritation.
 - Work in a wellventilated area to avoid inhaling fumes from cleaning products.
 - Ensure that the firearm is pointed in a safe direction at all times.
 - When using the Ripcord® or other cleaning tools, do not apply excessive force to avoid damaging the firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your Glock pistol is completely unloaded and pointed in a safe direction.
- Gather all necessary tools from the cleaning kit, including the MemoryFlex® cable, bore brushes, and patches.

2. Cleaning Procedure:

- Start by using the appropriate bore brush (bronze or nylon) for your caliber to scrub the barrel.
- Attach the MemoryFlex® cable to the bore brush and insert it into the barrel from the breech end.
- Pull the cable through the barrel to clean from BreechtoMuzzle®.
- Use the obstruction remover if necessary to clear any blockages.
- Follow up with patches to remove any remaining debris or solvent.
- For quick field cleaning, utilize the Ripcord® designed for your caliber.
- Use the steel pistol loop rod to punch patches through the barrel for additional cleaning.
- Clean magazines using the magazine plate removal tool included in the kit.

3. Lubrication:

- After cleaning, apply FP10 Lubricant Elite® to the necessary components to ensure smooth

operation and protection against corrosion.

4. Final Inspection:

- Inspect all parts of the firearm to ensure they are clean and lubricated.
- Reassemble the firearm and check that it functions properly before use.

Disposal Instructions

- Dispose of any used patches, gloves, and cleaning materials in accordance with local regulations.
- Do not dispose of cleaning solvents or lubricants down the drain. Instead, follow local hazardous waste disposal guidelines.

Contact Information for Further Support

For any inquiries or concerns regarding the Professional Pistol Cleaning Kit for Glocks®, please refer to the manufacturer's website or contact your local retailer for assistance.

By following these safety instructions, you can ensure a safe and effective cleaning experience for your Glock pistol. Thank you for your attention to these important guidelines.
