

WISE SOFT JAWS - OTIS WISE SOFT JAWS AK

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Jaws](#)

For gunsmiths or firearm owners working on their AK firearms, the Otis AK Soft Jaws are an essential item to protect your AK while keeping it secure in a vise. Works with light duty vises up to large, heavy duty vises (minimum vise jaw measurement is 4"L x 0.5"H). Composed of a non-slip rubber material, these soft jaws have the perfect balance of hardness to keep even the smallest parts clamped and flexibility to mold to the various shapes of a firearm. Softer than gun parts, these soft jaws will not mar or scratch gun metals. The rubber is oil, solvent and alcohol resistant and easily wipes clean. They also feature a top lip which not only help protect the firearm but in conjunction with embedded magnets, also hold the Soft Jaws to the jaws of the vise. Designed by a group of professional gunsmiths, the AK soft jaws are designed specifically for AK firearm platforms and feature detailed contouring and rivet holes to perfectly fit and securely hold rifles of the AKM pattern, the most commonly found AK style. This Soft Jaw will not fit RPK pattern AK rifles.

WISE SOFT JAWS OTIS WISE SOFT JAWS AK Safety Instruction Guide

Introduction

Thank you for choosing the WISE SOFT JAWS OTIS WISE SOFT JAWS AK. These soft jaws are designed specifically for use with AK firearms, providing essential protection while securely holding your firearm in a vise. This guide outlines safety instructions and best practices to ensure safe use in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the product is used only for its intended purpose, which is to secure AK firearms in a vise.
- Inspect the soft jaws for any signs of wear or damage before each use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the soft jaws only with vises that meet the minimum jaw measurement of 4"L x 0.5"H.
- Ensure that the firearm is unloaded before securing it in the vise.
- Avoid using excessive force when clamping the firearm to prevent damage to both the firearm and the soft jaws.
- Do not use the soft jaws on RPK pattern AK rifles, as they are not compatible.
- Be cautious of sharp edges and moving parts of the vise during operation.
- Do not expose the soft jaws to extreme temperatures or harsh chemicals.

Instructions for Installation and Usage

1. Preparation:

- Ensure you have a compatible vise with a minimum jaw measurement of 4"L x 0.5"H.
- Confirm that the firearm is unloaded and safe to handle.

2. Installation:

- Place the soft jaws over the jaws of the vise, ensuring they fit securely.
- Use the embedded magnets to help hold the soft jaws in place during installation.

3. Securing the Firearm:

- Position the firearm within the soft jaws, ensuring it is properly aligned.
- Gently close the vise to clamp the soft jaws around the firearm, taking care not to apply excessive pressure.

4. Usage:

- Perform your gunsmithing tasks as needed, ensuring you monitor the firearm's stability throughout the process.
- If adjustments are necessary, release the vise gently and reposition the firearm as needed.

5. PostUsage:

- After completing your work, carefully release the vise and remove the firearm.
- Clean the soft jaws with a damp cloth to remove any debris or residue.

Disposal Instructions

- Dispose of the product in accordance with local regulations for rubber and plastic waste.
- Do not incinerate the product, as it may release harmful substances.
- Consider recycling options if available in your area.
