

# WISE SOFT JAWS - OTIS WISE SOFT JAWS GENERAL USE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Vise Jaws](#)

For gunsmiths or firearm owners working on their AK firearms, the Otis AK Soft Jaws are an essential item to protect your AK while keeping it secure in a vise. Works with light duty vises up to large, heavy duty vises (minimum vise jaw measurement is 4"L x 0.5"H). Composed of a non-slip rubber material, these soft jaws have the perfect balance of hardness to keep even the smallest parts clamped and flexibility to mold to the various shapes of a firearm. Softer than gun parts, these soft jaws will not mar or scratch gun metals. The rubber is oil, solvent and alcohol resistant and easily wipes clean. They also feature a top lip which not only help protect the firearm but in conjunction with embedded magnets, also hold the Soft Jaws to the jaws of the vise. Designed by a group of professional gunsmiths, the AK soft jaws are designed specifically for AK firearm platforms and feature detailed contouring and rivet holes to perfectly fit and securely hold rifles of the AKM pattern, the most commonly found AK style. This Soft Jaw will not fit RPK pattern AK rifles.

# WISE SOFT JAWS OTIS SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the VISE SOFT JAWS OTIS for your gunsmithing needs. These soft jaws are designed to protect your AK firearms while securely holding them in a vise. This guide provides essential safety instructions to ensure the safe and effective use of this product.

## General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Inspect the VISE SOFT JAWS for any visible damage before use. Do not use if damaged.
- Ensure that the vise is securely mounted to a stable surface before attaching the soft jaws.
- Keep the product out of reach of children and vulnerable individuals.
- If you notice any unusual wear or performance issues, discontinue use and consult the manufacturer.

## Specific Safety Precautions for Use

- Use the soft jaws only with light duty to large heavy duty vises (minimum vise jaw measurement is 4"L x 0.5"H).
- Do not exceed the recommended weight limit of your vise when using the soft jaws.
- Ensure that the rubber material of the soft jaws is clean and free from any debris before use to maintain a secure grip.
- Avoid using the soft jaws with chemicals or solvents that may degrade the rubber material.
- Do not place excessive force on the soft jaws when clamping, as this may cause damage to both the soft jaws and the firearm.
- Always ensure that the firearm is unloaded and safe before working on it.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the jaws of the vise to ensure proper adhesion of the soft jaws.
- Inspect the soft jaws for any damage.

### 2. Installation:

- Align the soft jaws with the vise jaws.
- Press the soft jaws firmly onto the vise jaws, ensuring that they are securely attached.
- The embedded magnets will assist in holding the soft jaws in place.

### 3. Using the Soft Jaws:

- Place the firearm between the soft jaws.
- Gently close the vise until the soft jaws securely hold the firearm without excessive pressure.
- Check that the firearm is stable and secure before proceeding with any work.

### 4. PostUse:

- After use, remove the soft jaws from the vise.
- Clean the soft jaws with a damp cloth to remove any residue.
- Store the soft jaws in a cool, dry place.

## **Disposal Instructions**

- Dispose of the VISE SOFT JAWS in accordance with local regulations regarding rubber products.
- Do not dispose of in household waste if local regulations require special disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support, please refer to the contact information provided by the manufacturer on the product packaging or website.

Thank you for your attention to these safety instructions. Your safety and the integrity of your firearms are our top priorities.
