

GUN/PARTS CLEANING BRUSH - BROWNELLS GUN/PARTS CLEANING BRUSH, 1 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Gun Cleaning Brushes](#)

Military-Approved, Double-Ended Cleaning Power For Guns & Parts

Developed for the U.S. Armed Forces to clean M16/M4 rifles quickly and effectively and get them back into action. Double-ended, solvent-proof, polypropylene handle provides a large, contoured series of nylon bristles to cover curves and open areas, while the short, extra-stiff, narrow line of bristles tackles the really tough crud in those hard to reach areas. Gets down inside actions, pistol slides, around the extractor star on revolver cylinders, plus provides superior scrubbing action for individual parts and hard-to-reach areas on shop machinery. Enough bristle backbone to remove greasy gun dirt, yet won't scratch delicate blued surfaces. We've used them with d'Solve™, EZ-Soak™, WD-40, Hoppes bore cleaners, and a host of other solvents and oils on everything from fine custom rifles to neglected, black powder guns. An exceptionally good, practical, cleaning brush for use at the bench or in the field.

GUN/PARTS CLEANING BRUSH SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the Brownells Gun/Parts Cleaning Brush. This product has been developed for the U.S. Armed Forces to effectively clean M16/M4 rifles and other firearms. This guide provides important safety information and instructions to ensure safe and effective use of the cleaning brush.

General Safety Guidelines

- Always read and follow the instructions provided in this guide before using the cleaning brush.
- Ensure that the cleaning brush is used only for its intended purpose, which is cleaning firearms and machinery.
- Keep the cleaning brush out of reach of children and vulnerable individuals.
- Inspect the cleaning brush for any damage before each use. Do not use if damaged.
- Use the cleaning brush in a wellventilated area to avoid inhaling any dust or debris.
- Wear appropriate personal protective equipment (PPE) such as gloves and safety goggles when using solvents or cleaning agents.

Specific Safety Precautions for Use

- Do not use the cleaning brush on hot surfaces or while the firearm is loaded.
- Avoid using excessive force when cleaning to prevent damage to the firearm or the brush.
- Ensure that all cleaning solvents and oils are compatible with the materials of the cleaning brush and the items being cleaned.
- Do not immerse the cleaning brush in solvents for extended periods, as this may degrade the handle material.
- Be cautious when cleaning small or intricate parts to avoid injury from sharp edges.

Instructions for Installation and Usage

- **Using the Cleaning Brush:**

1. Hold the cleaning brush by the solventproof polypropylene handle.
2. Use the large, contoured nylon bristles to clean curves and open areas of the firearm or machinery.
3. For tough grime in hardtoeach areas, utilize the short, extrastiff bristles.
4. Apply a suitable cleaning solvent to the area being cleaned as needed.
5. After cleaning, wipe down the area with a clean, dry cloth to remove any residue.

- **Storage:**

- Store the cleaning brush in a dry place, away from direct sunlight and extreme temperatures.
- Keep the brush in its original packaging or a protective case when not in use.

Disposal Instructions

- Dispose of the cleaning brush in accordance with local regulations.
- If the brush is damaged beyond use, consider recycling the polypropylene handle where facilities exist.
- Do not dispose of the cleaning brush in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the appropriate contact channels provided by the manufacturer. Ensure you have the product details handy for quicker assistance.

By following these guidelines, you can ensure safe and effective use of your Brownells Gun/Parts Cleaning Brush. Thank you for your commitment to safety and responsible cleaning practices.
