## NRA Official Trigger Weights For Referees, Juries, Gun Shops & Shooters

**NRA OFFICIAL UNIVERSAL TRIGGER WEIGHT SYSTEM** The NRA Official Universal Trigger Weight System is a precision tool designed to meet the stringent requirements of match referees, international juries, and gunsmiths for accurate trigger pull testing. Accurate measurement of trigger pull weight is essential for ensuring firearm safety and compliance with competition standards.

**Key Features:**

- Comprehensive Weight Set:** The system includes a base weight and a series of additional weights, allowing for precise measurement of trigger pull across a wide range. The roller ends on both long and short hanging rods automatically keep the weight in the trigger curve, ensuring consistent and accurate readings.
- Versatile Application:** Suitable for use with various firearms, the system's design accommodates different trigger guard configurations, making it a versatile tool for gunsmiths and competitive shooters.
- Durable Construction:** Built to withstand regular use, the components are made from high-quality materials, ensuring longevity and reliability in various environments.

**Specifications:**

**Components Included:**

- Two Trigger Rods: Long Rod (21" length) and Short Rod (12" length)
- One NRA 500 Gram Base Weight
- Two NRA 500 Gram Weights
- One NRA 1/2 lb Weight
- Two NRA 1 lb Weights
- One NRA .91 lb "Add-On" Weight

**Weight Range:** The system allows for measurements from 500 grams up to several pounds, depending on the combination of weights used.

**Material:** Constructed from durable, high-quality materials to ensure long-term accuracy and reliability.

**Customer Insights:** Customers appreciate the NRA Official Universal Trigger Weight System for its precision and ease of use. The roller-ended rods are particularly valued for maintaining proper alignment within the trigger curve, leading to consistent measurements. The comprehensive set of weights provides flexibility, accommodating a wide range of trigger pull specifications. Users also commend the system's durable construction, noting its reliability during repeated use in both professional and competitive settings. Incorporating the NRA Official Universal Trigger Weight System into your firearms maintenance routine ensures precise and reliable trigger pull measurements, enhancing both safety and performance.

## Safety Instruction Guide

### Introduction

Thank you for choosing the NRA Official Universal Trigger Weight System by Custom Gunsmithing. This product is designed to help match referees, international juries, and gunsmiths ensure accurate trigger pull testing. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions provided in this manual.

### General Safety Guidelines

- Always read the instructions carefully before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Regularly inspect the product for signs of wear or damage.
- Do not use the product if it is damaged or malfunctioning.
- Ensure that the area of use is free from distractions and hazards.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

### Specific Safety Precautions for Use

- Ensure that the trigger weight system is set up on a stable surface to prevent tipping.
- Do not exceed the maximum weight capacity of the system.
- Always use the provided weights in accordance with the instructions.
- Avoid placing fingers or other body parts near the trigger during testing to prevent injury.
- Use caution when handling weights to avoid dropping them.
- If you are not familiar with firearms or trigger pull testing, seek assistance from a qualified professional.

### Instructions for Installation and Usage

#### Installation

##### 1. Unpack the Product:

- Carefully remove all components from the packaging.
- Ensure all parts are present: two trigger rods (long and short), one 500 gram base weight, two 500 gram weights, one 1/2 lb weight, and two 1 lb weights.

##### 2. Assemble the Trigger Weight System:

- Attach the long rod (21" long) or short rod (12" long) to the base weight.
- Ensure that the roller ends are properly aligned to keep the weight in the trigger curve.

#### Usage

##### 1. Setting Up:

- Place the assembled trigger weight system on a stable, flat surface.
- Ensure that the area is clear of any obstructions or hazards.

##### 2. Testing Trigger Pull:

- Attach the appropriate weight to the rod based on the desired testing specifications.
- Gradually apply force to the trigger until the weight is activated.
- Record the trigger pull weight for your reference.

### **3. Removing Weights:**

- Carefully detach the weights after testing.
- Store the weights in a safe location to prevent loss or damage.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling components where possible to reduce environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the use or safety of the NRA Official Universal Trigger Weight System, please consult the manufacturer's website or customer service for assistance. Ensure that you reference the product name and model when seeking support.

Thank you for your attention to these safety instructions. Enjoy your experience with the NRA Official Universal Trigger Weight System.
