An All-Steel Magazine for Your M1 Carbine

In post-WWII America, one of the most popular military-surplus guns on the market was the M1 Carbine, thanks to its light, handy construction, semi-automatic operation and detachable magazine. Today, these military classics continue to be popular with WWII enthusiasts and plinkers, and these M1 Carbine steel magazines are designed to work in today's reproduction and original rifles. The M1 Carbine steel magazine is designed for use with .30 Carbine cartridges only and have a magazine body made from heat-treated carbon steel. The magazine is treated with a black-oxide finish that combats corrosion and premature wear. Inside each M1 Carbine steel magazine, you'll find a spring formed from heat-treated chrome-silicon wire, as well as a stamped-steel follower. The magazines are available in 15- and 30-round capacities and are made in the USA.

Attributes

- Name: [PRO MAG M1 CARBINE MAGAZINE 15-RD STEEL BLUE .30 CARBINE](#)

M1 Carbine Steel Magazines Safety Instruction Guide

Introduction

Thank you for purchasing the M1 Carbine Steel Magazines. This guide provides essential safety information and instructions to ensure the safe use and handling of your magazine. It is important to follow these guidelines to minimize risks and ensure compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the magazine is compatible with .30 Carbine cartridges only.
- Always handle the magazine with care to prevent damage.
- Store the magazine in a cool, dry place away from moisture and direct sunlight.
- Keep the magazine out of reach of children and unauthorized users.
- Regularly inspect the magazine for signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always ensure the firearm is pointed in a safe direction when loading or unloading the magazine.
- Do not attempt to modify or alter the magazine in any way.
- Ensure the magazine is fully inserted into the firearm before attempting to fire.
- Avoid using damaged or worn magazines, as they may pose a safety hazard.
- Never exceed the magazine's specified capacity of 15 rounds.
- Use only factorymanufactured .30 Carbine ammunition to ensure safe operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Align the magazine with the magazine well of the firearm.
- Firmly push the magazine into the magazine well until it clicks into place.

2. Usage:

- Load the magazine by inserting .30 Carbine cartridges, ensuring they are properly seated.
- After loading, insert the magazine into the firearm as described in the installation section.
- To remove the magazine, press the magazine release button and gently pull the magazine out of the firearm.

3. Maintenance:

- Clean the magazine regularly using a soft cloth to remove dirt and debris.
- Avoid using harsh chemicals that may damage the magazine's finish.
- Store the magazine in its original packaging or a protective case when not in use.

Disposal Instructions

- Dispose of the magazine in accordance with local regulations regarding metal recycling or hazardous waste.
- Do not dispose of the magazine in regular household waste.

- If the magazine is damaged or no longer functional, contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the M1 Carbine Steel Magazines, please refer to the appropriate EU-based contact point. Ensure you have the product information ready when seeking support.

By following these guidelines, you can ensure the safe and effective use of your M1 Carbine Steel Magazines. Thank you for your attention to safety.
