## An All-Steel Magazine for Your M1 Carbine

In post-WWII America, one of the most popular military-surplus guns on the market was the M1 Carbine, thanks to its light, handy construction, semi-automatic operation and detachable magazine. Today, these military classics continue to be popular with WWII enthusiasts and plinkers, and these M1 Carbine steel magazines are designed to work in today's reproduction and original rifles. The M1 Carbine steel magazine is designed for use with .30 Carbine cartridges only and have a magazine body made from heat-treated carbon steel. The magazine is treated with a black-oxide finish that combats corrosion and premature wear. Inside each M1 Carbine steel magazine, you'll find a spring formed from heat-treated chrome-silicon wire, as well as a stamped-steel follower. The magazines are available in 15- and 30-round capacities and are made in the USA.

## Attributes

- Name: [PRO MAG M1 CARBINE MAGAZINE 30-RD STEEL BLUE .30 CARBINE](#)
- Manufacturer: [PRO MAG](#)

# M1 Carbine Steel Magazines Safety Instruction Guide

## Introduction

Thank you for choosing the M1 Carbine Steel Magazines. These magazines are designed for use with .30 Carbine cartridges and are manufactured to ensure reliability and performance in both reproduction and original M1 Carbine rifles. This guide provides essential safety information to ensure the safe use and maintenance of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle magazines and firearms with care and respect. Treat every firearm as if it is loaded.
- Ensure that the magazine is compatible with your firearm model before use.
- Store magazines in a cool, dry place away from direct sunlight and moisture to prevent corrosion.
- Keep magazines out of reach of children and unauthorized users.
- Regularly inspect magazines for wear or damage. Do not use damaged magazines.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Only use the M1 Carbine Steel Magazines with .30 Carbine cartridges.
- Do not attempt to modify or disassemble the magazine.
- Avoid overloading the magazine beyond its specified capacity (30 rounds).
- Always make sure the firearm is pointed in a safe direction when loading or unloading the magazine.
- Be aware of your surroundings and ensure a safe shooting environment.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded before inserting the magazine.
- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into place until it clicks.

### 2. Usage:

- To load the magazine, hold it securely and insert .30 Carbine cartridges one at a time.
- Ensure that each cartridge is seated properly within the magazine.
- Once loaded, insert the magazine into the firearm as described in the installation section.
- After firing, remove the magazine by pressing the magazine release button and pulling the magazine out.

### 3. Maintenance:

- Regularly clean the magazine using a dry cloth to remove dirt and debris.
- Inspect the spring and follower for any signs of wear or damage.
- If necessary, lubricate the magazine lightly with a suitable firearm lubricant.

## **Disposal Instructions**

- Dispose of old or damaged magazines in accordance with local regulations.
- Do not throw magazines in regular trash; consider recycling options if available.
- Ensure that any disposed magazines are rendered unusable before disposal.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the M1 Carbine Steel Magazines, please reach out to the appropriate EUbased contact point or consult the manufacturer's website for more information.

Thank you for prioritizing safety while using the M1 Carbine Steel Magazines. Your responsible handling contributes to a safer shooting environment for all.
