### A Ruger P-Series Magazine With Extended Capacity

For years, the Ruger P-Series guns were workhorse pistols that certainly weren't going to win any beauty contests, but they ran reliably and continue to provide dependable service to owners today. However, it's been some years since Ruger offered P-Series guns, so users of these pistols need to stock up on these Ruger P-Series steel magazines to get in more trigger time. The Ruger P-Series steel magazine is designed for use with 9mm cartridges only and have a magazine body made from heat-treated carbon steel. The magazine is treated with a black-oxide finish that combats corrosion and premature wear. Inside each Mossberg 702 Plinkster steel magazine, you'll find a spring formed from heat-treated chrome-silicon wire, as well as an injection-molded follower. The magazines are available with a 32-round capacity and are made in the USA. The magazine will not fit in the Ruger P85.

### Attributes

- Name: [PRO MAG RUGER®ALL P-SERIES MAGAZINE 32-RD STEEL BLUE 9MM](#)

# **RUGER® ALL P SERIES STEEL MAGAZINE 9MM**

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the RUGER® ALL P SERIES STEEL MAGAZINE 9MM. This guide provides essential safety instructions to ensure the proper use and handling of your magazine. Adhering to these guidelines will help you avoid potential hazards and ensure a safe experience.

### **General Safety Guidelines**

- Ensure that the magazine is compatible with your firearm model before use.
- Always treat every firearm as if it is loaded.
- Keep the magazine out of reach of children and unauthorized users.
- Use only 9mm Luger cartridges in the magazine.
- Regularly inspect the magazine for any signs of damage or wear.
- Do not attempt to modify or disassemble the magazine.
- Store the magazine in a cool, dry place away from direct sunlight.
- Report any unsafe products or accidents to the appropriate authorities.

### **Specific Safety Precautions for Use**

- Always check that the magazine is empty before loading it into your firearm.
- Avoid using the magazine if it shows signs of corrosion or significant wear.
- When loading the magazine, do so in a safe environment away from others.
- Do not exceed the magazine's 32round capacity.
- Ensure that the magazine is securely locked in place before firing.
- If a jam occurs, follow your firearm's manual for clearing procedures.

### **Instructions for Installation and Usage**

#### **1. Loading the Magazine**

- Ensure the magazine is clean and free from debris.
- Hold the magazine with the base facing down.
- Insert the cartridges one at a time into the magazine, ensuring they are seated properly.
- Do not exceed the 32round capacity of the magazine.

#### **2. Installing the Magazine in the Firearm**

- Ensure the firearm is pointed in a safe direction and is unloaded.
- Align the magazine with the magazine well of the firearm.
- Push the magazine firmly into place until you hear a click, indicating it is secured.

#### **3. Removing the Magazine**

- Ensure the firearm is pointed in a safe direction.
- Press the magazine release button on the firearm.
- Gently pull the magazine out of the magazine well.

#### **4. Maintenance**

- Regularly clean the magazine to prevent dirt and debris buildup.

- Use a soft cloth and a suitable cleaning solution to wipe the exterior.
- Inspect the spring and follower for proper function.

## **Disposal Instructions**

- Dispose of the magazine according to local regulations.
- Do not throw the magazine in regular household waste.
- If the magazine is damaged or no longer usable, consider recycling the steel components where possible.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and use of the RUGER® ALL P-SERIES STEEL MAGAZINE 9MM, please refer to the manufacturer's official support resources.

Please remember that safety is paramount when handling firearms and their accessories. Follow these guidelines closely to ensure a safe and enjoyable experience.
