## Safety Instruction Guide

### Introduction

Thank you for choosing the HSET Airbrush Kit Paasche H5 Airbrush Kit. This guide provides essential safety instructions to ensure the safe use of the product. Please read this guide carefully before using the airbrush kit to understand how to operate it safely and effectively.

### General Safety Guidelines

- Always use the airbrush kit in a wellventilated area to avoid inhaling fumes or overspray.
- Keep the airbrush kit out of reach of children and vulnerable individuals.
- Inspect the airbrush kit for any damage before use. Do not use if any parts are broken or missing.
- Follow all local regulations regarding the use of spray paints and finishes.
- Store the airbrush kit in a dry, cool place when not in use.

### Specific Safety Precautions for Use

- Use only clean, dry air with the airbrush kit. Ensure that your air compressor provides 1 cfm at 2045 psi.
- Always wear appropriate personal protective equipment (PPE), including gloves and a mask, to protect against inhalation of paint particles and contact with skin.
- Avoid spraying in the presence of open flames or sparks.
- Do not exceed the recommended pressure settings, as this may lead to equipment damage or hazardous situations.
- Clean the airbrush immediately after use to prevent paint from drying and clogging the nozzle.
- Do not mix incompatible paints or solvents, as this may produce harmful fumes.

### Instructions for Installation and Usage

#### 1. Setup:

- Connect the airbrush to your air compressor using the provided ¼" air hose and couplings.
- Ensure all connections are secure to prevent air leaks.

#### 2. Filling the Color Cup:

- Open the color cup and pour in the desired paint or finish. Do not overfill.
- For larger jobs, consider using the separate 3 fl. oz. (88.7 ml) color bottle.

#### 3. Adjusting the Airbrush:

- Use the adjustment wrenches to set the desired spray pattern and flow rate.
- Test the airbrush on a scrap piece of material before starting your project.

#### 4. Spraying:

- Hold the airbrush at a consistent distance from the surface being painted.
- Apply even strokes to achieve a uniform finish.

#### 5. Cleaning:

- After use, disassemble the airbrush and clean it with the included mini nylon brushes and larger bristle brush.

- Rinse all parts with clean water or an appropriate solvent, and allow them to dry completely before reassembling.

## **Disposal Instructions**

- Dispose of any leftover paint and solvents according to local regulations.
- Do not pour paint or solvents down the drain or throw them in regular trash.
- Recycle packaging materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the HSET Airbrush Kit Paasche H5 Airbrush Kit, please refer to your local distributor or retailer for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your airbrush kit. Thank you for your attention to safety!
