S&W SIDEPLATE SHIMS POWER CUSTOM MODEL #1 POWER SIDEPLATE SHIMS Safety Instruction Guide

Introduction

Thank you for choosing the S&W Sideplate Shims Power Custom Model #1. These shims are designed to enhance the performance of your S&W K, L, and N frame handguns by reducing the "slop" between the hammer or trigger and the sideplate, resulting in a smoother and improved trigger pull. This safety instruction guide provides essential information to ensure safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms and related components with care and respect.
- Ensure that the firearm is unloaded and in a safe condition before installing or handling the shims.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear or damage before use.
- Follow all local laws and regulations regarding firearm modifications and accessories.
- In case of any doubts or questions regarding the product, consult a qualified gunsmith or firearms expert.

Specific Safety Precautions for Use

- Ensure that the firearm is completely unloaded before beginning installation.
- Use the correct model shim for your specific application:
 - Model #1 for S&W hammer pivot.
 - Model #2 for S&W trigger pivot.
- Avoid using excessive force during installation to prevent damage to the firearm or shims.
- Do not modify the shims or use them in a manner not intended by the manufacturer.
- If you experience any unusual resistance or difficulty during installation, stop immediately and seek assistance.
- Always test the trigger pull and function of the firearm after installation to ensure proper operation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials.
- Ensure your workspace is clean and free from distractions.
- Verify that the firearm is unloaded.

2. Installation Steps:

- Identify the appropriate shim model for your firearm:
 - Use Model #1 for the hammer pivot.
 - Use Model #2 for the trigger pivot.
- Carefully remove the sideplate from the firearm according to the manufacturer's instructions.
- Clean the area where the shim will be installed to ensure a secure fit.
- Insert the shim into the designated area between the hammer or trigger and the sideplate.
- Reattach the sideplate securely, ensuring that all screws and components are properly tightened.
- Conduct a function check to ensure the hammer and trigger operate smoothly.

3. PostInstallation Check:

- After installation, test the trigger pull and overall function of the firearm.
- If any issues arise, consult a qualified gunsmith for further evaluation.

Disposal Instructions

- Dispose of any unused or damaged shims in accordance with local regulations.
- Do not dispose of shims in regular household waste. Instead, check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any inquiries or concerns regarding the S&W Sideplate Shims Power Custom Model #1, please consult a qualified gunsmith or refer to the manufacturer's website for additional resources and support.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safer and more enjoyable experience with your firearm and its accessories.
