

# BLANK SCOPE RING BASE STOCK - POWER CUSTOM 9" WEAVER SCOPE RING BASE STOCK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Handgun Bases](#)

## Weaver-Style Or Picatinny Profile; Ready To Machine For Custom Installations

Blank aluminum stock has a milled center channel for lighter weight without reducing strength. Just cut to required length, mill the cross slots, radius the underside (if needed) and drill the mounting holes. Plenty of thickness allows machining to fit most revolver top straps and receivers. Available in Weaver or Picatinny profiles.

## Attributes

# Safety Instruction Guide for BLANK SCOPE RING BASE STOCK POWER CUSTOM 9" WEAVER SCOPE RING BASE STOCK

## Introduction

Thank you for choosing the BLANK SCOPE RING BASE STOCK from POWER CUSTOM. This product is designed to provide a secure and customizable mounting solution for your optics. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the product is suitable for your specific firearm before installation.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the scope ring base for signs of wear or damage.
- If you notice any defects or issues, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Use only compatible accessories and components with the scope ring base.
- Avoid overtightening screws during installation to prevent damage to the product and firearm.
- Ensure that the mounting holes are drilled accurately to maintain the integrity of the firearm and scope.
- Be aware of the potential for sharp edges when cutting or milling the aluminum stock. Wear appropriate protective gear, such as gloves and safety glasses.
- Always follow the manufacturer's guidelines for the specific firearm you are using.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a milling machine, drill, and measuring instruments.
- Ensure that your workspace is clean and free of distractions.

### 2. Cutting to Length:

- Measure the required length for your specific application.
- Use a saw or cutting tool to cut the aluminum stock to the desired length.

### 3. Milling the Cross Slots:

- Mark the locations for the cross slots on the underside of the scope ring base.
- Use a milling machine to create the cross slots according to your specifications.

### 4. Rounding the Underside:

- If necessary, radius the underside of the scope ring base to fit the contours of your firearm.
- Use appropriate tools to achieve a smooth finish.

### 5. Drilling Mounting Holes:

- Mark and drill the mounting holes based on your firearm's specifications.
- Ensure that the holes are drilled straight and to the correct depth.

## 6. Installation:

- Align the scope ring base with the mounting points on your firearm.
- Securely fasten the base using screws or bolts, ensuring not to overtighten.

## 7. Final Checks:

- Inspect the installation to ensure that everything is secure and properly aligned.
- Test the stability of the scope ring base before use.

## Disposal Instructions

- Dispose of any unused or waste materials in accordance with local regulations.
- Recycle aluminum components when possible to minimize environmental impact.

## Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product. Always ensure that any questions or concerns are addressed before using the product.

By following these safety instructions, you can ensure a safe and effective experience with the BLANK SCOPE RING BASE STOCK. Thank you for your attention to these important guidelines.
