Safety Instruction Guide for CYLINDER BEARINGS POWER CUSTOM PC4

Introduction

Thank you for choosing the CYLINDER BEARINGS POWER CUSTOM PC4. These stainless steel bearings are designed to help eliminate excess cylinder and yoke endplay in Smith & Wesson K, L, and N frames. This guide provides important safety information and instructions to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure safe handling and usage of the product by following these guidelines:
 - Use the product only for its intended purpose as described in this guide.
 - Keep the product out of reach of children and vulnerable individuals.
 - Inspect the product for any defects before use. Do not use if damaged.
 - Store the product in a cool, dry place away from direct sunlight.
 - Follow all local laws and regulations regarding firearm maintenance and modifications.

Specific Safety Precautions for Use

- When using the CYLINDER BEARINGS POWER CUSTOM PC4, please observe the following precautions:
 - Wear appropriate safety gear, including safety glasses, to protect against debris during installation.
 - Ensure the firearm is unloaded and pointed in a safe direction before beginning any work.
 - Avoid touching the firearm's trigger while working on it to prevent accidental discharge.
 - If you are unfamiliar with firearm maintenance, seek assistance from a qualified gunsmith.
 - Do not attempt to modify or disassemble the bearings beyond the manufacturer's specifications.

Instructions for Installation and Usage

- Follow these steps to install and use the CYLINDER BEARINGS POWER CUSTOM PC4 safely:

1. Preparation:

- Gather necessary tools, including a screwdriver and any other tools required for your specific firearm model.
- Ensure your workspace is clean and free of distractions.

2. Installation:

- Remove the cylinder from the firearm according to the manufacturer's instructions.
- Carefully remove the old bearings, noting their orientation and placement.
- Install the new CYLINDER BEARINGS POWER CUSTOM PC4 by placing them in the same orientation as the old bearings.
- Reassemble the cylinder and ensure it is secure before reattaching it to the firearm.

3. Testing:

- After installation, test the cylinder for smooth operation before using the firearm.
- Check for any abnormal sounds or resistance during operation. If issues arise, recheck the installation.

Disposal Instructions

- Dispose of any old bearings and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of bearings in waterways or public spaces.

Contact Information for Further Support

- For any safety inquiries or concerns regarding the CYLINDER BEARINGS POWER CUSTOM PC4, please contact the manufacturer or authorized dealer. Ensure you have your product details available for efficient support.

By following these guidelines and instructions, you can ensure the safe and effective use of the CYLINDER BEARINGS POWER CUSTOM PC4. Thank you for prioritizing safety in your firearm maintenance.
