

# AR-15/M16 GAS BUSTER CHARGING HANDLE - PRECISION REFLEX GAS BUSTER CHARGING HANDLE WITH COMBAT LATCH

[Rifle Parts](#) > [Bolt Parts](#) > [Charging Handle Parts](#) > [Charging Handles](#)

## Keeps Gas Blowback Away From Shooter's Face

The Precision Reflex Gas Buster AR-15 Charging Handle has a special gas deflection groove that deflects gas blowback, oil, or other debris away from the shooter's face. A PRI Gas Buster will help protect you in the event of a blown case, failed primer, or some other cartridge failure. PRI machines each Gas Buster charging handle from extra-strong 7075 T6 aluminum alloy, with extra metal at stress points to resist twisting or, even worse, breakage under hard use. A matte black hardcoat anodized finish helps prevent surface wear. The latch itself is made of steel so this small but critical part won't fail you at the wrong time. The Precision Reflex Gas Buster AR-15 Charging Handle comes as a complete assembly, ready to drop into your rifle. It is available in three configurations: Flat Latch model most resembles the standard mil-spec charging handle, but has a deeply hooked latch face that gives you a super-secure, non-slip hold Military Big Latch is oversized with a straight front edge that is easy to locate, grasp, and operate; edges are rounded to protect your fingers Combat Latch has a similar contour to Military Big Latch but is 17% larger, with serrations on the front edge to assist in quick and comfortable operation All versions of the Precision Reflex Gas Buster AR-15 Charging Handle are designed to help you operate the handle reliably and quickly under stress, when crucial seconds make all the difference.

## Attributes

- Name: [PRECISION REFLEX GAS BUSTER CHARGING HANDLE WITH COMBAT LATCH](#)
- Manufacturer: [PRECISION REFLEX](#)
- Product no.: 714000030
- Mfr. No.: 05-0032
- Finish: Black

# Safety Instruction Guide for the AR15/M16 Gas Buster Charging Handle

## Introduction

Thank you for choosing the Precision Reflex Gas Buster Charging Handle for your AR15/M16 rifle. This product is designed to enhance your shooting experience by providing reliable gas deflection and improved handling. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Ensure that the charging handle is properly installed before use.
- Regularly inspect the charging handle for wear or damage.
- Do not use the charging handle if it shows signs of wear or failure.
- Keep the charging handle and firearm out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Gas Deflection:** The Gas Buster design helps deflect gas blowback away from the shooter. Ensure you are aware of its operation to maximize safety.
- **Handling:** Always grip the charging handle firmly and securely to prevent slippage during operation.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting which may lead to malfunction.
- **Environmental Considerations:** Avoid using the charging handle in extreme weather conditions that may affect its performance.
- **Wear Protective Gear:** When operating firearms, consider wearing safety glasses and hearing protection.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your rifle is unloaded and pointed in a safe direction.
- Remove the existing charging handle by pulling it out of the upper receiver.
- Align the Gas Buster Charging Handle with the receiver and insert it until it is fully seated.
- Ensure the latch is functioning properly by testing its movement.

### 2. Usage:

- To operate the charging handle, grasp it firmly with your dominant hand.
- Pull the handle back smoothly and release it to chamber a round.
- Avoid using excessive force which may lead to damage.

### 3. Regular Maintenance:

- Clean the charging handle regularly to remove dirt and debris.
- Inspect for any signs of wear or damage, particularly at stress points.

## Disposal Instructions

- Dispose of the charging handle in accordance with local regulations.
- If the charging handle is damaged or no longer usable, consider recycling it if possible.

## Contact Information for Further Support

For additional support, please refer to the product documentation or contact your retailer for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Precision Reflex Gas Buster Charging Handle. Thank you for prioritizing safety in your shooting activities.
