

TWO POSITION SAFETY KIT - WISNER #120K SAFETY KIT

[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

Converts Military Safety To Convenient Side Swing Position

Modernizes the original military shroud and vertical safety to an easier-to-operate, two-position, side swing. Complete, ready-to-install kit provides increased clearance for lower mounting of scopes. Vertical grooving on thumb lever gives a positive, no-slip grip. Fully hardened and heat treated to resist wear. Requires machining of your shroud.

Attributes

TWO POSITION SAFETY KIT WISNER #120K

SAFETY KIT Safety Instructions

Introduction

Thank you for purchasing the TWO POSITION SAFETY KIT WISNER #120K SAFETY KIT. This guide provides essential safety instructions and installation guidelines to ensure the safe and effective use of this product. Please read this manual carefully before installation and use.

General Safety Guidelines

- Ensure that you are familiar with your firearm and its components before attempting installation.
- Always handle firearms with care and follow all standard safety practices.
- Keep the safety kit out of reach of children and unauthorized users.
- Inspect the safety kit for any damage before installation. Do not use if damaged.
- Only use this safety kit with compatible models as specified in the product description.

Specific Safety Precautions for Use

- **Installation Warning:** This kit requires gunsmith installation. Improper installation can lead to serious injury or damage to the firearm.
- **Machining Requirement:** The shroud requires machining. Follow all safety protocols during this process.
- **Final Polishing:** After installation, ensure that the product is polished adequately to avoid sharp edges that could cause injury.
- **Scope Clearance:** Ensure that the installation of the safety kit provides sufficient clearance for the mounting of scopes.
- **Positive Grip:** The thumb lever is designed for a noslip grip. Ensure that it is functioning properly before use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials for installation.
- Ensure that your work area is clean and organized.

2. Installation Steps:

- Remove the existing safety mechanism from your firearm.
- Machine the shroud as required for the installation of the TWO POSITION SAFETY KIT.
- Install the lever, pivot screw, plunger, and spring as included in the kit.
- Ensure that all components are securely fastened and properly aligned.

3. PostInstallation:

- Test the functionality of the safety kit before using the firearm.
- Check that the thumb lever operates smoothly and provides a positive grip.
- Perform a final inspection to ensure there are no loose parts or sharp edges.

4. Usage:

- Always engage the safety when the firearm is not in use.

- Familiarize yourself with the operation of the twoposition, side swing safety mechanism.
- Ensure that the safety is disengaged only when ready to fire.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the safety kit or any components become unusable, dispose of them in a manner that prevents accidental use.
- Contact local authorities for guidance on the disposal of firearm components if necessary.

Contact Information for Further Support

For any inquiries or concerns regarding the TWO POSITION SAFETY KIT WISNER #120K SAFETY KIT, please refer to the contact information provided with your product packaging or visit the manufacturer's website for additional support.

By following these guidelines and instructions, you can ensure the safe and effective use of your TWO POSITION SAFETY KIT WISNER #120K SAFETY KIT. Thank you for prioritizing safety.
