

TWO POSITION SAFETY KIT - WISNER #140K SAFETY KIT

[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

Converts Military Safety To Convenient Side Swing Position

Modernizes the original military shroud and vertical safety to an easier-to-operate, two-position, side swing. Complete, ready-to-install kit provides increased clearance for lower mounting of scopes. Vertical grooving on thumb lever gives a positive, no-slip grip. Fully hardened and heat treated to resist wear. Requires machining of your shroud.

SAFETY KIT Safety Instructions

Introduction

Thank you for purchasing the TWO POSITION SAFETY KIT WISNER #140K. This safety kit modernizes the original military shroud and vertical safety, providing an easier to operate, two position, side swing mechanism. This guide contains important safety instructions and installation information to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the safety kit is compatible with your firearm model (Model 1903, 03A3 Springfield).
- Always follow all local laws and regulations regarding firearm modifications and usage.
- Use the safety kit only for its intended purpose.
- Handle all firearms as if they are loaded, and keep them pointed in a safe direction.
- Store the safety kit and your firearm securely and out of reach of children and unauthorized users.
- Regularly inspect your firearm and safety kit for any signs of wear or damage.

Specific Safety Precautions for Use

- Do not attempt to install the safety kit without proper tools and skills. It is recommended that a qualified gunsmith perform the installation.
- Ensure that the firearm is unloaded before beginning installation.
- Be cautious of sharp edges and moving parts during installation.
- Avoid applying excessive force when using the thumb lever to prevent damage to the kit or injury to yourself.
- Always test the safety mechanism after installation to ensure it is functioning correctly before using the firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure you have the necessary tools for installation.
- Gather the components of the kit: Lever, Pivot Screw, Plunger, and Spring.

2. Installation Steps:

- Remove the existing shroud from your firearm.
- Carefully machine your shroud to accommodate the new safety kit. This may require professional assistance.
- Install the lever onto the designated area of the shroud.
- Secure the lever with the pivot screw, ensuring it moves freely.
- Insert the plunger and spring according to the provided specifications.
- Once installed, test the lever to ensure it operates smoothly and engages the safety mechanism effectively.

3. Post Installation:

- Perform a thorough inspection of the installed safety kit.
- Ensure that all components are securely fastened and functioning correctly.
- Conduct a safety test with the firearm unloaded to confirm that the safety mechanism engages

and disengages properly.

Disposal Instructions

- Dispose of any unused or damaged components of the safety kit in accordance with local regulations.
- If you decide to dispose of the entire safety kit, ensure it is done safely and responsibly to prevent any unauthorized use.

Contact Information for Further Support

For any inquiries regarding the TWO POSITION SAFETY KIT WISNER #140K, please refer to the manufacturer's contact information provided with your product.

Conclusion

By following these safety instructions, you can ensure the safe use and installation of the TWO POSITION SAFETY KIT WISNER #140K. Always prioritize safety when handling firearms and seek professional assistance when necessary. Thank you for choosing our product, and we wish you safe and enjoyable shooting experiences.
