

# SAF-T-TRAINERS DUMMY ROUNDS - PRECISION GUN SPECIALTIES 380 AUTO ORANGE DUMMY ROUNDS 50/PACK

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Cartridge Dummies](#)

## Brightly Colored "Dummies" For Training Exercises

Brightly colored plastic and a different "feel" makes sure you won't confuse these for live rounds. Popular with many departments and agencies for use in Immediate Action training for just that reason. These do not duplicate weight and balance of loaded rounds or function-testing dummies.

## Attributes

# SAFTTRAINERS DUMMY ROUNDS SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing SAFTTRAINERS Dummy Rounds by Precision Gun Specialties. These brightly colored plastic dummy rounds are designed for training purposes, ensuring that you can practice safely without the risk of using live ammunition. This guide provides essential safety instructions and guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- **Product Safety:** Use these dummy rounds only for training and simulation purposes. They are not designed for live firing.
- **Enhanced Recalls:** Stay informed about any product recalls or safety notices. Regularly check the EU Safety Gate platform for updates.
- **Online Shopping:** Ensure that you purchase dummy rounds from authorized retailers who comply with EU safety requirements.
- **Special Consumer Focus:** Keep these products out of reach of children. They are not toys and should not be handled by individuals under the age of 18 without adult supervision.
- **EU Contact Point:** For any safety inquiries, please refer to the contact details provided by your retailer or manufacturer.
- **Rapid Alerts:** Be aware of any safety alerts regarding this product through the Safety Gate system.

## Specific Safety Precautions for Use

- **Do Not Use for Live Firing:** These dummy rounds are not suitable for live ammunition use. Misuse can lead to serious injury or death.
- **Training Use Only:** Ensure that dummy rounds are used in a controlled training environment and under the supervision of qualified personnel.
- **Inspect Before Use:** Always inspect the dummy rounds for any signs of damage or wear before use. Do not use damaged rounds.
- **Avoid Confusion:** Clearly distinguish these dummy rounds from live ammunition. Store them separately to prevent accidental mixups.
- **Supervise Young Users:** If dummy rounds are used in training sessions involving younger individuals, ensure they are supervised by a responsible adult at all times.

## Instructions for Installation and Usage

- **Loading:** When loading dummy rounds into a firearm or training device, ensure that the firearm is pointed in a safe direction and that the area is clear of other individuals.
- **Handling:** Handle dummy rounds with care. Although they are made of plastic, they should be treated with the same caution as live ammunition.
- **Storage:** Store dummy rounds in a cool, dry place away from direct sunlight. Keep them in their original packaging or a designated storage container.
- **Training Procedures:** Follow established training procedures and guidelines provided by your training organization. Always prioritize safety during training exercises.

## Disposal Instructions

- **Disposal of Dummy Rounds:** Dummy rounds can be disposed of in regular household waste. However, it is recommended to check with local regulations regarding disposal of plastic products.
- **Recycling:** If possible, consider recycling the plastic. Check with local recycling facilities for acceptance

of plastic training rounds.

## **Contact Information for Further Support**

For any questions or concerns regarding the SAFTTRAINERS Dummy Rounds, please refer to the contact information provided by your retailer or manufacturer. Always ensure you have the latest information regarding safety and usage guidelines.

By following these safety instructions, you can ensure a safe and effective training experience with SAFTTRAINERS Dummy Rounds. Thank you for prioritizing safety in your training practices.
