

# STANDARD SCALE CHECK WEIGHT SET - RCBS STANDARD SCALE CHECK WEIGHT SET

[Reloading](#) > [Powder Handling](#) > [Powder Scales](#)

## Helps You Check & Calibrate Your Powder Scale s Accuracy

The RCBS Standard Scale Check Weight Set helps you make sure your scale is weighing accurately. Grit and dust accumulation on measuring equipment can have an adverse effect on the unit's accuracy, but RCBS Standard Scale Check Weight Set gives you a simple, objective test to make sure your scales are still accurate - or need critical adjustment. The set includes the following weights: 2 - 20 grain 1 - 10 grain 1 - 5 grain 2 - 2 grain 1 - 1 grain 1 - 1/2 grain. Accurately weighed powder charges are critical to safe, consistent reloads. With the RCBS Standard Scale Check Weight Set, you can determine if your scale is producing accurate readings when checking the charges coming from your powder measure. Brownells Gun Tech™ Tip: If you're loading large rifle cartridges, use the RCBS Deluxe Check Weight Set (sold separately).

# RCBS Standard Scale Check Weight Set Safety Instructions

## Introduction

Thank you for choosing the RCBS Standard Scale Check Weight Set. This product is designed to help you ensure the accuracy of your scales, which is crucial for safe and consistent reloading. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

## General Safety Guidelines

- Always ensure that your workspace is clean and free of dust and debris.
- Keep the check weight set out of reach of children and pets.
- Do not use the weights for any purpose other than checking the accuracy of scales.
- Inspect the weights for any signs of damage or wear before use.
- If any weights are damaged, do not use them and contact the manufacturer for assistance.

## Specific Safety Precautions for Use

- When using the weights, handle them with care to avoid dropping them.
- Ensure that the scale is on a stable surface to prevent tipping or falling.
- Use the weights in a welllit area to clearly see the scale readings.
- Do not expose the weights to extreme temperatures or moisture, as this may affect their accuracy.
- Always store the weights in their designated case to prevent loss or damage.

## Instructions for Installation and Usage

### 1. Setting Up the Scale:

- Place the scale on a flat, stable surface.
- Ensure that the scale is calibrated according to the manufacturer's instructions.

### 2. Using the Check Weights:

- Select the appropriate weight from the RCBS Standard Scale Check Weight Set according to the scale's capacity.
- Gently place the weight on the scale.
- Wait for the scale to stabilize and provide a reading.
- Compare the reading to the known weight value. If the reading is not accurate, adjust your scale as necessary.

### 3. After Use:

- Carefully remove the weight from the scale.
- Store the weights in their original case to protect them from damage.
- Regularly check the weights for accuracy and condition.

## Disposal Instructions

- Dispose of any damaged weights in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where applicable.
- Do not dispose of the weights in regular household waste if they are made of materials that require special handling.

## **Contact Information for Further Support**

For any questions or concerns regarding the RCBS Standard Scale Check Weight Set, please refer to the manufacturer's website or contact their customer support team for assistance.

Thank you for prioritizing safety and accuracy in your reloading process. Enjoy using your RCBS Standard Scale Check Weight Set!
