

MATCHMASTER COMPETITION NECK BUSHING DIE SETS - RCBS

6.5MM PRC COMPETITON NECK BUSHING DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The RCBS MatchMaster Competition die sets are the perfect sets of dies for the precision handloader looking to craft the most precise round possible. The neck sizing die utilizes RCBS's precision-machined neck bushings to put the perfect amount of neck tension on each round while not changing the body dimensions of fired cases. The titanium nitride coated expander offers silky-smooth case extraction and reduced brass build up on the expander both of which help reduce the amount of stretch on the case neck. Rounding out this exceptional set is the MatchMaster Competition Seating Die. What sets the MatchMaster seating die apart from the competition is our bullet seating window with bullet retaining system. Simply place the bullet in the window and raise the case into the die to seat the bullet. No more smashed fingers or misaligned bullets! Couple this with a micrometer adjustable, free-floating, self-centering bullet seating stem and you have the easiest, most accurate bullet seating die on the market. NECK SIZING DIE UTILIZES PRECISION-MACHINED NECK BUSHINGS TITANIUM NITRIDE EXPANDER MICROMETER ADJUSTABLE SEATER FREE FLOATING/SELF-CENTERING BULLET SEATING SYSTEM BULLET LOADING WINDOW WITH BULLET RETAINING SYSTEM

Safety Instruction Guide for RCBS MatchMaster Competition Neck Bushing Die Sets

Introduction

Thank you for choosing the RCBS MatchMaster Competition Neck Bushing Die Sets. Designed for precision handloading, these die sets ensure the highest quality rounds for your shooting needs. This guide provides essential safety instructions to help you use the product safely and effectively in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the product by following all instructions carefully.
- Always check for potential hazards before using the product.
- Keep the die sets out of reach of children and vulnerable individuals.
- Report any unsafe product conditions or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety glasses and gloves when handling reloading equipment to protect against brass debris and other potential hazards.
- **Workspace Safety:** Use the die sets in a wellventilated area, free from distractions and clutter.
- **Inspection:** Regularly inspect the dies and components for wear or damage. Do not use damaged equipment.
- **Proper Handling:** Handle the dies with care to avoid injury. Ensure all parts are securely fastened before use.
- **Avoid Overloading:** Do not exceed recommended load limits for any components during reloading.

Instructions for Installation and Usage

1. Setup:

- Gather all necessary tools and materials, including the die set, reloading press, brass cases, primers, powder, and bullets.
- Ensure your workspace is clean and organized.

2. Installation of Neck Sizing Die:

- Insert the neck sizing die into the reloading press and secure it as per the manufacturer's instructions.
- Adjust the die to the desired size using the precisionmachined neck bushings provided in the set.

3. Use of Expander:

- Utilize the titanium nitride coated expander for smooth case extraction.
- Ensure the expander is clean and free from brass buildup before use.

4. Seating Bullets:

- Place the bullet in the bullet loading window of the MatchMaster Competition Seating Die.
- Raise the case into the die to seat the bullet accurately.
- Adjust the micrometer for precise bullet seating depth as needed.

5. Final Checks:

- Inspect each round for proper assembly, ensuring no components are misaligned or damaged.
- Store any unused materials safely and securely.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Recycle brass cases where possible, following your local recycling guidelines.
- Ensure that all hazardous materials, such as primers and powders, are disposed of safely at designated facilities.

Contact Information for Further Support

For any safety inquiries or further assistance, please contact the manufacturer directly through the provided channels. Ensure you have the product information ready for a quicker response.

Thank you for prioritizing safety while using the RCBS MatchMaster Competition Neck Bushing Die Sets. Enjoy your reloading experience and stay safe!
