High Quality To Help You Do The Best Work

STEEL TAPS The Reiff & Nestor Company Steel Taps are precision-engineered tools designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. Crafted from steel, these taps offer superior durability and maintain their hardness even under high temperatures, making them ideal for continuous use. These taps are available in various thread sizes and styles, including bottom, plug and taper taps which are essential for threading close to the bottom of blind holes. The steel construction ensures longevity and precise threading, accommodating a wide range of gunsmithing applications. Specifications: Material: Steel Tap Styles: Bottom Tap Plug Taper Thread Sizes Available: 8-40 10-32 3/16-32 3-56 6-40 7/32-40 1/4-28 1/4-30 1/4-22 Customer Insights: Users of the Reiff & Nestor Company Steel Taps appreciate their precision and durability. The high-speed steel construction allows for efficient threading without compromising the tool's integrity, making these taps a reliable choice for both professional gunsmiths and hobbyists. Incorporating the Reiff & Nestor Company Steel Taps into your gunsmithing toolkit ensures reliable and accurate threading, enhancing the quality and longevity of firearm components.

Safety Instruction Guide for STEEL TAPS REIFF & NESTOR COMPANY STEEL PLUG TAP 1/4"30 THREAD

Introduction

Thank you for choosing the Reiff & Nestor Company Steel Plug Tap 1/4"30 Thread. This precisionengineered tool is designed for creating and repairing internal threads in firearm components. Please read this safety instruction guide carefully to ensure safe usage and maintenance of the product.

General Safety Guidelines

- Always read and follow the instructions provided in this guide before using the product.
- Ensure that the taps are used in accordance with the intended purpose and specifications.
- Keep the taps out of reach of children and unauthorized users.
- Regularly check for wear and damage to the taps before use.
- If you notice any defects or irregularities, discontinue use immediately and seek a replacement.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves to protect against metal shavings and debris.
- Ensure that the work area is clean, welllit, and free from distractions.
- Use the taps in a stable and secure manner to prevent slipping or accidents.
- Do not exceed the recommended torque specifications when using the taps to avoid breakage or injury.
- Avoid using taps on materials for which they are not designed, as this may result in tool failure or injury.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the threading process.
- Ensure the workpiece is securely clamped or held in place.

2. Using the Tap:

- Select the appropriate tap size for your threading needs.
- Align the tap perpendicular to the workpiece to ensure straight threading.
- Apply cutting fluid to the tap and the workpiece to facilitate smoother operation and reduce wear.
- Start turning the tap slowly and steadily, applying light pressure. Avoid forcing the tap.
- After a full rotation, reverse the tap slightly to break the chip and prevent binding. Repeat this process until the desired depth is achieved.

3. PostUse Care:

- Clean the tap after use to remove any debris or cutting fluid.
- Store the taps in a dry, secure location to prevent damage and rust.

Disposal Instructions

- Dispose of any damaged or worn taps in accordance with local regulations for metal waste.
- Do not dispose of taps in regular household waste. Consider recycling where possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding the product, please contact the manufacturer or your local authorized dealer. Ensure you have the product details ready for reference.

By following these safety instructions, you can ensure a safe and effective experience with the Reiff & Nestor Company Steel Plug Tap 1/4"30 Thread. Thank you for your attention to safety.
