

# **SOLVENT BOTTLES - SINCLAIR INTERNATIONAL SOLVENT BOTTLE WITH FLIPTOP LID, 4OZ**

[Gun Cleaning & Chemicals](#) > [Solvents & Degreasers](#) > [Bore Solvents](#)

Our plastic solvent bottles are invaluable for the storage and application of your cleaning solvents. Each of our two bottles comes with an applicator flip-snout cap and a solid cap for storage. The Sinclair Tall Solvent bottle is high-density polypropylene which we have fluorinated to resist even the strongest ammonia and oil based products. The bottle measures 5" tall x 1-5/8" in diameter and holds 4-ozs. of solvent. Our Sinclair Short Solvent bottle is also high-density polypropylene but it is not fluorinated. Many shooters prefer it for their cleaning boxes because of its lower 4" tall x 2" in diameter profile, this bottle also holds 4 oz. of solvent.

## **Attributes**

- Name: [SINCLAIR INTERNATIONAL SOLVENT BOTTLE WITH FLIPTOP LID, 4OZ](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000192
- Mfr. No.: 70015

# Safety Instruction Guide for Sinclair International Solvent Bottles

## Introduction

Thank you for choosing the Sinclair International Solvent Bottles. These bottles are designed for the safe storage and application of cleaning solvents. This guide provides important safety information to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the solvent bottles in a wellventilated area to avoid inhalation of fumes.
- Keep bottles away from heat sources, sparks, and open flames.
- Store bottles in a cool, dry place, away from direct sunlight.
- Ensure that bottles are tightly closed when not in use to prevent leaks and evaporation.
- Keep out of reach of children and pets to avoid accidental ingestion or misuse.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The solvent bottles may contain substances that can be harmful if inhaled, ingested, or come into contact with skin.
- Highdensity polypropylene may not be suitable for all solvents; check compatibility before use.

### • Avoiding Hazards:

- Do not use the bottles for any purpose other than storing and applying cleaning solvents.
- Always wear appropriate personal protective equipment (PPE), such as gloves and goggles, when handling solvents.
- Avoid direct skin contact with solvents. If contact occurs, wash the affected area with soap and water immediately.
- In case of inhalation of fumes, move to fresh air and seek medical attention if symptoms persist.

### • Age and Audience Specific Warnings:

- These bottles are not intended for use by children. Adult supervision is required when used in environments where children are present.

## Instructions for Installation and Usage

### • Installation:

- No installation is required for the solvent bottles. Ensure the bottle is clean and dry before use.

### • Usage Instructions:

- Open the applicator flipsnout cap carefully to avoid spills.
- Pour the solvent into the bottle if transferring from another container, ensuring not to exceed the 4 oz. capacity.
- Close the cap securely after each use to prevent leaks.

- Use the applicator flipsnout cap for precise application of the solvent.

## **Disposal Instructions**

- Dispose of empty solvent bottles in accordance with local regulations for hazardous waste.
- Do not incinerate the bottles unless specifically instructed to do so by local regulations.
- If the bottle still contains solvent, consult local guidelines for the disposal of hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the Sinclair International Solvent Bottles, please refer to the contact information provided with the product packaging or visit the official Sinclair International website for further assistance.

Thank you for prioritizing safety while using our products.
