

# GRAPHITER - FORSTER PRODUCTS, INC. REPLACEMENT POWDERED GRAPHITE

[Reloading](#) > [Case Preparation](#) > [Case Lube](#)

The Forster Case Graphiter is a great way to reduce expander ball friction in your case necks. Three brushes mount to the Case Graphiter base and accommodate 22 to 35 caliber. By moving your cases up and down on a brush, the neck is cleaned and lubricated at the same time. Minimizes case stretching and distortion. The Forster Case Graphiter includes enough motor mica to process 2,000 to 3,000 cases. Mica refills are available (FX1-R)

Powdered Graphite (White Mica-replacement quantity)

# Safety Instruction Guide for GRAPHITER FORSTER PRODUCTS, INC. POWDERED GRAPHITE

## Introduction

Thank you for choosing GRAPHITER FORSTER PRODUCTS, INC. Powdered Graphite. This product is designed for use as a case lube and serves as a replacement for white mica. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always keep the product out of reach of children and pets.
- Use the product in a wellventilated area to avoid inhalation of dust.
- Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- Store the product in its original container, tightly closed, and in a cool, dry place.
- Regularly check for any updates or recalls on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Wear protective gloves and a dust mask when handling the powdered graphite to minimize inhalation and skin contact.
- Ensure that the work area is free from any ignition sources, as graphite dust can be flammable under certain conditions.
- Do not mix with incompatible materials; refer to the Material Safety Data Sheet (MSDS) for compatibility information.
- Dispose of any waste material according to local regulations.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the work area is clean and wellventilated.
- Gather all necessary tools and safety equipment.

### 2. Application:

- Use a clean applicator or brush to apply the powdered graphite to the required area.
- Apply a thin, even layer to avoid excess buildup.
- Allow the graphite to settle and adhere before proceeding with any further steps in your project.

### 3. PostApplication:

- Clean any tools used with a suitable solvent to remove residual graphite.
- Wash hands thoroughly after handling the product.

## Disposal Instructions

- Dispose of any unused product or waste material in accordance with local waste disposal regulations.
- Do not dispose of the product in household waste or down the drain.
- Check with local authorities for specific disposal guidelines related to powdered graphite.

## **Contact Information for Further Support**

For any inquiries or further information regarding the safety and use of this product, please contact the manufacturer directly. Ensure that you have the product details and any relevant information available when reaching out.

Thank you for your attention to these safety instructions. Your safety is our priority.
