

O-RING REPLACEMENT KITS - SINCLAIR INTERNATIONAL O-RING REPLACEMENT KIT, 25-30 CALIBER, 5 PACK

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

The O-rings on your Sinclair bore guides, snouts for Sinclair All Purpose Rod Guides, Solvent Ports and Chamber Plugs should be replaced occasionally because solvents and use eventually wear them out. We use three sizes of O-rings only, so having some spares on hand is not expensive. The 222 and 223 family of guides and the 17 caliber guides do require the O-ring installation tool included in the O-ring kits. The two larger size O-rings can be installed fairly easily without the tool, though the kits include the tool for almost no additional charge over the 10 O-rings. All three O-ring sizes are available separately in 5-packs.

Attributes

- Name: [SINCLAIR INTERNATIONAL O-RING REPLACEMENT KIT, 25-30 CALIBER, 5 PACK](#)

ORing Replacement Kits Safety Instruction Guide

Introduction

Thank you for choosing the ORing Replacement Kits from Sinclair International. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safe and effective use of the product. Please read this guide carefully before using the ORing Replacement Kits.

General Safety Guidelines

- Ensure that the ORing Replacement Kits are used only for their intended purpose.
- Keep the kits out of reach of children and vulnerable individuals to prevent accidental ingestion or misuse.
- Regularly inspect the ORings for signs of wear or damage before each use.
- Do not use worn or damaged ORings, as they may compromise the safety and functionality of your bore guides and related equipment.
- Follow all instructions carefully to avoid accidents and ensure optimal performance.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling ORings and bore guides.
- Avoid contact with solvents and chemicals that may be used with the bore guides, as they can be harmful.
- Ensure that the workspace is clean and free from clutter to prevent accidents during installation and usage.
- If you experience any adverse reactions (e.g., skin irritation) when handling the ORings or related products, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including the ORing installation tool provided in the kit.
- Ensure that your workspace is clean and welllit.

2. Removing Old ORings:

- Carefully remove the worn ORings from the bore guides, snouts, or other components.
- Dispose of the old ORings properly according to local waste disposal regulations.

3. Installing New ORings:

- Select the appropriate size ORing from the kit.
- For ORings that require the installation tool:
 - Insert the ORing into the tool and position it over the designated area.
 - Gently press the tool to seat the ORing securely in place.
- For larger ORings that do not require the tool:
 - Position the ORing over the designated area and press it into place using your fingers.
- Ensure that the ORing is seated evenly and securely.

4. Final Inspection:

- After installation, inspect the ORings to ensure they are properly seated and free from defects.

- Test the functionality of the bore guides or related equipment to confirm proper operation.

Disposal Instructions

- Dispose of old or damaged ORings in accordance with local regulations for waste disposal.
- Do not dispose of ORings in regular household waste if they contain hazardous materials.
- If unsure about disposal methods, consult local waste management authorities for guidance.

Contact Information for Further Support

For any questions or concerns regarding the ORing Replacement Kits, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions and guidelines, you can ensure the safe and effective use of your ORing Replacement Kits. Thank you for your attention to safety.
