

SINCLAIR CASE NECK SORTING TOOL - SINCLAIR INTERNATIONAL CASE NECK SORTING TOOL STANDARD ALIGNMENT ROD

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The Sinclair Case Neck Sorting Tool is designed for the reloader to quickly sort brass by neck wall thickness. Large variances in neck wall thickness can affect the consistency of how the case seals the chamber and is also an indication of variances in body wall thickness. Cases are rotated under an indicator tip while they are supported on a case neck pilot and a support pin through the flash hole. The low profile and stable platform makes for comfortable use and accurate results. The tool works for 22 thru 45 caliber cases and can be used on 17 and 20 caliber cases with the optional carbide alignment rod. Tool can be ordered with or without a dial indicator. Order 17 Caliber and 20 Caliber Sinclair Case Neck Pilots separately. MIC-4 pin fits .060 & .080 flash holes. Available pilot stops. It is intended for use with either a .001" (one thousandth) reading dial indicator or digital indicator, both with a 3/8" shank. This tool will not accept most .0001" (one ten-thousandth) reading dial indicators.

Attributes

- Name: [SINCLAIR INTERNATIONAL CASE NECK SORTING TOOL STANDARD ALIGNMENT ROD](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000665

Sinclair Case Neck Sorting Tool Safety Instructions

Introduction

Thank you for choosing the Sinclair Case Neck Sorting Tool. This tool is designed to assist reloaders in sorting brass by neck wall thickness, which is crucial for achieving consistent performance. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear.
- Do not use the tool if it is damaged or malfunctioning.
- Always work in a welllit area to avoid accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, when using the tool.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

• Hazard Identification

- Risk of injury from sharp edges: Handle the tool carefully to avoid cuts.
- Risk of improper sorting: Ensure the tool is correctly set up to achieve accurate measurements.
- Risk of equipment failure: Regularly check the tool for wear and tear, especially the dial indicator.

• Avoiding Hazards

- Always ensure that the case neck pilot is securely in place before use.
- Do not exceed the recommended calibers for the tool.
- Avoid using the tool near flammable materials or in environments with poor ventilation.
- Keep hands and loose clothing clear of moving parts during operation.

• Age Specific Warnings

- This product is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that inexperienced users are guided by a knowledgeable adult during operation.

Instructions for Installation and Usage

1. Setting Up the Tool

- Place the tool on a stable, flat surface to ensure stability during use.
- If using the optional carbide alignment rod, install it according to the manufacturer's instructions.
- Ensure that the dial indicator is properly calibrated and securely attached to the tool.

2. Using the Tool

- Insert the case neck into the pilot and ensure it is supported by the support pin through the flash hole.
- Rotate the case under the indicator tip to read the neck wall thickness.
- Record the measurements as necessary for sorting purposes.

3. PostUse Care

- After use, clean the tool with a soft cloth to remove any debris or residue.
- Store the tool in a dry place, away from extreme temperatures or humidity.

Disposal Instructions

- Dispose of the tool in accordance with local regulations.
- If the tool is no longer functional, consider recycling materials where possible.
- Do not dispose of the tool in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Sinclair Case Neck Sorting Tool, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure the safe and effective use of the Sinclair Case Neck Sorting Tool. Thank you for your attention to these guidelines, and happy reloading!
