

SINCLAIR LOADING BLOCK (25 ROUNDS) - SINCLAIR INTERNATIONAL 0.350" BASE 25 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These 25 round blocks are half-size blocks that are excellent for small batches of cases. These blocks are also commonly used on the shooting bench to hold loaded rounds or fired cases. blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. 749-000-742 only has 16 round capacity due to case head diameter.

Attributes

- Name: [SINCLAIR INTERNATIONAL 0.350" BASE 25 ROUND LOADING BLOCK](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000734
- Mfr. No.: PS01

Safety Instruction Guide for SINCLAIR LOADING BLOCK (25 ROUNDS)

Introduction

Thank you for choosing the SINCLAIR LOADING BLOCK (25 ROUNDS) from SINCLAIR INTERNATIONAL. This loading block is designed for reloading enthusiasts and provides a safe and efficient way to handle your cases. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the loading block is used for its intended purpose only.
- Always inspect the loading block for any signs of damage or wear before use.
- Keep the loading block out of reach of children and vulnerable individuals.
- Use the loading block in a wellventilated area to prevent the accumulation of any potentially harmful substances.
- Report any unsafe product conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not overload the loading block beyond its specified capacity of 25 rounds.
- Ensure that the cartridges you are using are compatible with the loading block specifications (e.g., 22 Hornet, 17 Hornet).
- Always handle ammunition with care and follow standard safety practices while reloading.
- Do not use the loading block for any purpose other than reloading and storing ammunition.
- Avoid using the loading block near open flames or high heat sources.

Instructions for Installation and Usage

1. Preparation:

- Ensure your work area is clean and organized.
- Gather all necessary tools and materials before starting the reloading process.

2. Loading the Block:

- Place the loading block on a stable surface.
- Begin inserting cases into the holes of the loading block, ensuring that each case fits snugly.
- The loading block is designed with finger grooves for a secure grip. Use these grooves when handling the block.

3. Cleaning the Block:

- The loading block is made from solid white polyethylene, which is easy to clean.
- For routine cleaning, wash the block with warm, soapy water and rinse thoroughly.
- The loading block is dishwasher safe for convenience.

4. Storage:

- Store the loading block in a cool, dry place when not in use.
- Ensure that the block is stored away from children and pets.

Disposal Instructions

- Dispose of the loading block in accordance with local regulations.
- Do not dispose of the loading block in regular household waste if it is damaged or no longer usable.
- Check with your local waste management facility for specific disposal guidelines related to polyethylene products.

Contact Information for Further Support

For any questions or concerns regarding the SINCLAIR LOADING BLOCK (25 ROUNDS), please reach out to the appropriate support channels provided by the manufacturer.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using your SINCLAIR LOADING BLOCK.
