

SINCLAIR LOADING BLOCK (25 ROUNDS) - SINCLAIR INTERNATIONAL 0.565" DIAMETER 16 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These 25 round blocks are half-size blocks that are excellent for small batches of cases. These blocks are also commonly used on the shooting bench to hold loaded rounds or fired cases. blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. 749-000-742 only has 16 round capacity due to case head diameter.

Attributes

- Name: [SINCLAIR INTERNATIONAL 0.565" DIAMETER 16 ROUND LOADING BLOCK](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000742
- Mfr. No.: PS09
- Cartridge: 50-70 Govt
- Material: Poly
- Rounds Held: 16
- Delivery weight: 0.091kg
- Shipping height: 18mm
- Shipping width: 99mm
- Shipping length: 104mm

Safety Instruction Guide for SINCLAIR LOADING BLOCK (25 ROUNDS)

Introduction

Thank you for choosing the SINCLAIR LOADING BLOCK. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the loading block.

General Safety Guidelines

- Ensure that the loading block is used in accordance with the manufacturer's instructions.
- Keep the loading block out of reach of children and vulnerable individuals.
- Inspect the loading block for any signs of damage before use. Do not use if damaged.
- Always handle ammunition and reloading components in a safe and responsible manner.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the loading block only for its intended purpose: to hold loaded rounds or fired cases.
- Avoid overloading the block beyond its capacity of 16 rounds.
- When placing cases into the loading block, ensure they fit securely to prevent accidental spills.
- Do not leave loaded ammunition unattended.
- Clean the loading block regularly to prevent the buildup of debris or residues that may affect its performance.
- Use caution when handling fired cases, as they may still be hot.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your work area is clean and free of any distractions.
- Gather all necessary reloading components and tools.

2. Loading the Block:

- Hold the loading block securely with both hands.
- Align the case head with the hole in the block and gently push it into place.
- Ensure that the case is seated properly and does not wobble.

3. Using the Block:

- Place the loading block on a stable surface while in use.
- Use the finger grooves on the sides of the block for a secure grip.
- If using on a shooting bench, ensure that the area is clear of obstructions.

4. Cleaning the Block:

- After use, clean the loading block with warm soapy water or place it in the dishwasher for easy cleaning.
- Allow the block to dry completely before storing.

5. Storage:

- Store the loading block in a cool, dry place away from direct sunlight.
- Ensure it is stored out of reach of children and pets.

Disposal Instructions

- Dispose of the loading block in accordance with local regulations.
- If the block shows signs of wear or damage, consider recycling it if local facilities allow.
- Do not dispose of the block in regular household waste if it can be recycled.

Contact Information for Further Support

For safety inquiries or further assistance, please reach out to the designated EUbased contact point provided by the manufacturer. Ensure that you have the product details and any relevant information ready for a quicker response.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your SINCLAIR LOADING BLOCK. Always prioritize safety and responsibility when handling ammunition and reloading equipment. Thank you for your attention to these important safety measures.
