

# TRIM PRO SHELLHOLDER - RCBS TRIM PRO CASE TRIMMER SHELLHOLDER #6

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Trimmer Case Holders](#)

Trim cases quickly and accurately with the RCBS Trim Pro. The Trim Pro features a spring-loaded lever with shell holders (plates) that lock the cases securely and square to the cutter. The base is die cast metal and includes places for 8 case neck pilots. Length adjustment is easily done with a micrometer style adjustment collar on the cutter shaft. The cutter has hardened cutting blades for a lifetime of use. The trimmer is available in kit form which includes shell holders (2,3, 4, and 10) and pilots (.22, .24, .25, .27, 7mm, .30, .44, and .45 calibers). You can also buy the trimmer separately without pilots or shellholders. Optional accessories include the power converter, which allows you to use a power drill (not a power screwdriver), neck turning tool attachments, and a dust cover. Trim Pro Shellholders follow the same numbering system and cartridge fit as RCBS press type shellholders. See chart here.

# TRIM PRO SHELLHOLDER Safety Instruction Guide

## Introduction

Thank you for choosing the TRIM PRO SHELLHOLDER RCBS TRIM PRO CASE TRIMMER. This product is designed to help you trim cases quickly and accurately. To ensure safe and effective use, please read this safety instruction guide carefully. This guide complies with the EU General Product Safety Regulation (GPSR) to protect consumers and promote safe usage.

## General Safety Guidelines

- Ensure that the product is used according to the manufacturer's instructions.
- Always inspect the equipment before use for any signs of damage or wear.
- Use the product only for its intended purpose as specified in the manual.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.
- Regularly check for product recalls and updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment, including safety glasses and gloves, when using the trimmer.
- Ensure that the work area is clean, organized, and free of any hazards.
- Do not attempt to modify or alter the product in any way.
- Use the trimmer only with compatible shell holders and pilots as specified by the manufacturer.
- Do not exceed the manufacturer's recommended specifications for trimming cases.
- Always ensure that the cutter is properly secured before operation.
- Disconnect the power source when changing shell holders or pilots.

## Instructions for Installation and Usage

### 1. Installation:

- Place the trimmer on a stable, flat surface.
- Ensure that the power converter is properly connected to the trimmer and a suitable power source.
- Select the appropriate shell holder and pilot for the case you wish to trim.
- Secure the shell holder onto the trimmer following the manufacturer's instructions.

### 2. Usage:

- Adjust the length using the micrometerstyle adjustment collar on the cutter shaft.
- Insert the case into the shell holder, ensuring it is locked securely.
- Power on the trimmer using the power drill (not a power screwdriver).
- Carefully trim the case while keeping hands and body clear of the cutter.
- Once trimming is complete, power off the trimmer and remove the case from the shell holder.
- Clean the trimmer and workspace after use to maintain safety and efficiency.

## Disposal Instructions

- Dispose of the product in accordance with local waste management regulations.
- Do not dispose of electrical components in general waste.
- Check for any recycling programs available in your area for electronic devices.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the TRIM PRO SHELLHOLDER, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.
