

BULLET COMPARATOR INSERTS - SINCLAIR INTERNATIONAL

BULLET COMPARATOR INSERT, 45 CALIBER (0.458")

[Reloading](#) > [Measuring Tools](#) > [Bullet Comparators](#)

The Sinclair Bullet Comparator inserts are meant to be used with the Sinclair Bullet Comparator and Bump Gage Body. These inserts are stainless steel and machined with a taper and a short straight section to more accurately duplicate the chamber throat. This eliminates the wobble experienced with many comparators which have standard drilled holes. Our design allows you to quickly and accurately measure and compare bullet ogive-to-base as well as loaded round ogive-to-cartridge-base measurements. This measurement gives more consistent results than measuring overall lengths since the meplat (the open tip of the bullet) can vary by several thousandths of an inch from bullet to bullet.

Attributes

- Name: [SINCLAIR INTERNATIONAL BULLET COMPARATOR INSERT, 45 CALIBER \(0.458"\)](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000921

Safety Instruction Guide for Sinclair International 45 Caliber Bullet Comparator Inserts

Introduction

Thank you for choosing the Sinclair International 45 Caliber Bullet Comparator Inserts. These inserts are designed to enhance the accuracy of your bullet measurements and ensure a more consistent reloading experience. This guide provides essential safety information and instructions for the proper use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand this safety instruction guide before using the product.
- Ensure the product is used only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- If you notice any defects, discontinue use immediately and contact the manufacturer.

Specific Safety Precautions for Use

- Use the Bullet Comparator Inserts only with the compatible Sinclair Bullet Comparator and Bump Gage Body.
- Avoid applying excessive force when measuring to prevent damage to the inserts or inaccurate readings.
- Ensure that the area where measurements are taken is clear of obstructions and distractions.
- Wear appropriate safety gear, such as safety glasses, when handling bullets and ammunition.
- Store the Bullet Comparator Inserts in a safe, dry place when not in use to prevent damage.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Sinclair Bullet Comparator and Bump Gage Body are clean and free of debris.
- Insert the Sinclair Bullet Comparator Inserts into the designated slot of the Bullet Comparator.
- Ensure that the inserts are seated securely and are properly aligned.

2. Usage:

- Place the bullet or loaded round into the comparator, ensuring it is fully seated against the insert.
- Gently close the comparator to secure the bullet in place.
- Use a caliper or other measuring tool to measure the ogive to base or cartridge base distances.
- Record the measurements for your reloading data.

Disposal Instructions

- Dispose of any damaged or worn Bullet Comparator Inserts in accordance with local regulations.
- Do not throw the inserts in regular household waste. Instead, check for local recycling programs that accept metal products.
- Ensure that any packaging materials are disposed of responsibly.

Contact Information for Further Support

For any inquiries regarding the safety or use of this product, please reach out to the manufacturer through their

official contact channels.

By following these instructions and safety guidelines, you can ensure a safe and effective experience with your Sinclair International 45 Caliber Bullet Comparator Inserts. Thank you for prioritizing safety in your reloading practices.
