

# NECK TURNER PILOT - FORSTER PRODUCTS, INC. 0.257" NECK TURNER PILOT

[Reloading](#) > [Case Preparation](#) > [Neck Turning](#) > [Turning & Expander Mandrels](#)

This neck turning attachment is used on the Forster Case Trimmer to turn concentric and uniform necks easily and accurately. Attachment includes carbide cutter, hand fed cam to control speed of cut, and mechanical stop to control length of cut. Works on Forster Case Trimmers only. This tool requires outside neck turning pilots for applicable caliber (cannot use trimmer pilots). The pilots do not fit Forster Hand Held Outside Neck Turning Tool.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 0.257" NECK TURNER PILOT](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749000982

## #257 Safety Instruction Guide

### Introduction

Thank you for choosing the NECK TURNER PILOT from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe and effective use of the neck turning attachment. Please read this guide carefully before using the product, and keep it for future reference.

### General Safety Guidelines

- Ensure that the neck turning pilot is used only with Forster Case Trimmers.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when operating the tool.
- Keep the work area clean and welllit to prevent accidents.
- Store the tool in a safe place out of reach of children and vulnerable individuals.
- Regularly inspect the tool for wear and damage before each use. Do not use if damaged.
- Follow all local regulations regarding the use and disposal of tools and equipment.

### Specific Safety Precautions for Use

- Use only outside neck turning pilots that are compatible with the specific caliber being processed.
- Never attempt to use the neck turning pilot with trimmer pilots.
- Ensure that the cutter is properly installed and secured before operation.
- Do not exceed the recommended speed of cut as this may lead to tool failure.
- Always maintain a firm grip on the tool while in operation.
- Avoid wearing loose clothing or jewelry that may get caught in the tool.
- If you experience any unusual noises or vibrations during use, stop immediately and inspect the tool.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure that the Forster Case Trimmer is unplugged before installation.
- Attach the neck turning pilot securely to the trimmer according to the manufacturer's instructions.
- Verify that the carbide cutter is properly positioned and tightened.

#### 2. Usage:

- Plug in the Forster Case Trimmer and ensure it is in a stable position.
- Adjust the handfed cam to control the speed of the cut, starting at a low speed.
- Feed the brass case into the neck turning pilot carefully, ensuring it is aligned properly.
- Monitor the cutting process closely, making adjustments to speed as necessary.
- Once the desired neck thickness is achieved, remove the case and inspect it for uniformity.

#### 3. PostUse:

- Unplug the trimmer after use.
- Clean the neck turning pilot and trimmer to remove any brass shavings or debris.
- Store the tool in a dry, secure location.

## Disposal Instructions

- Dispose of the neck turning pilot and any damaged components in accordance with local regulations.
- Recycle materials whenever possible. Check with local recycling programs for specific guidelines on metal and plastic disposal.

## Contact Information for Further Support

For safety inquiries or further support regarding the NECK TURNER PILOT, please refer to the manufacturer's contact information provided with your product purchase.

By following these safety instructions, you can ensure a safe and effective experience using the NECK TURNER PILOT. Always prioritize safety and proper handling to prevent accidents and injuries. Thank you for your attention to these guidelines.
