

SOLVENT BOTTLES - SINCLAIR INTERNATIONAL SOLVENT BOTTLES BARRIER TYPE, 4OZ, 3 PACK

[Gun Cleaning & Chemicals](#) > [Solvents & Degreasers](#) > [Bore Solvents](#)

Our plastic solvent bottles are invaluable for the storage and application of your cleaning solvents. Each of our two bottles comes with an applicator flip-snout cap and a solid cap for storage. The Sinclair Tall Solvent bottle is high-density polypropylene which we have fluorinated to resist even the strongest ammonia and oil based products. The bottle measures 5" tall x 1-5/8" in diameter and holds 4-ozs. of solvent. Our Sinclair Short Solvent bottle is also high-density polypropylene but it is not fluorinated. Many shooters prefer it for their cleaning boxes because of its lower 4" tall x 2" in diameter profile, this bottle also holds 4 oz. of solvent.

Safety Instruction Guide for Sinclair International Solvent Bottles

Introduction

Thank you for choosing Sinclair International Solvent Bottles. These bottles are designed for the safe storage and application of cleaning solvents. This guide provides essential safety instructions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the bottles are used only for their intended purpose of storing and dispensing cleaning solvents.
- Keep the bottles out of reach of children and vulnerable individuals to prevent accidental exposure.
- Always read and follow the labels on the solvents used with these bottles.
- Store the bottles in a cool, dry place away from direct sunlight and sources of heat.
- Regularly check the bottles for any signs of damage or wear. Do not use damaged bottles.
- In case of a spill, clean it up immediately and follow the solvent manufacturer's safety instructions for cleanup.

Specific Safety Precautions for Use

- Always use the applicator flapsnout cap when dispensing solvent to minimize spills and splashes.
- Avoid contact with skin and eyes. If contact occurs, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Do not inhale vapors from the solvents. Use in wellventilated areas.
- Do not mix different types of solvents unless specified by the manufacturer, as this can create hazardous reactions.
- Always wear appropriate personal protective equipment (PPE), such as gloves and safety goggles, when handling solvents.

Instructions for Installation and Usage

1. Filling the Bottle:

- Ensure the bottle is clean and dry before filling.
- Use a funnel if necessary to avoid spills.
- Do not overfill the bottle; leave some space at the top to allow for expansion.

2. Using the Applicator:

- Ensure the flapsnout cap is securely attached.
- To dispense solvent, gently squeeze the bottle. Control the flow using the flapsnout cap.
- After use, close the cap tightly to prevent leaks.

3. Storing the Bottle:

- Store the bottle upright in a secure location.
- Ensure the bottle is clearly labeled with the contents and any hazard warnings.

Disposal Instructions

- Dispose of empty solvent bottles in accordance with local regulations for hazardous waste.
- Do not throw bottles in regular household waste.
- Ensure that all residues are removed before disposal.
- Check with local authorities for specific disposal guidelines related to solvents.

Contact Information for Further Support

For further inquiries or assistance regarding safety concerns or product information, please refer to the contact details provided with your product packaging or visit our official website.

By following these safety instructions, you can ensure the safe use of Sinclair International Solvent Bottles while complying with EU safety regulations. Always prioritize safety and act responsibly when handling solvents.
