

# SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL BULLET SEATING DEPTH GUIDE, 0.675" DIAMETER

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchester, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

## Attributes

- Name: [SINCLAIR INTERNATIONAL BULLET SEATING DEPTH GUIDE, 0.675" DIAMETER](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001230
- Mfr. No.: 59-4675
- Action Fit: Kimber 8400,Sako AIII,Sako AIV,Sako L61,Tikka,Weatherby Vanguard,Howa 1500
- Diameter (in): 0.675"
- Delivery weight: 0.023kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 146mm

# Safety Instruction Guide for the Sinclair Bullet Seating Depth Tool

## Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This tool is designed to help handloaders achieve optimal accuracy with their rifles. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

## General Safety Guidelines

- Always handle the tool with care and keep it out of reach of children.
- Ensure that you are familiar with the operation of your rifle before using this tool.
- Use the tool only for its intended purpose as described in this guide.
- Regularly inspect the tool for any signs of damage or wear before each use.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not use the tool while the rifle is loaded.
- Always work in a wellventilated area to avoid inhaling any dust or debris.
- Wear appropriate personal protective equipment, such as safety glasses and gloves.
- Ensure that the rifle is pointed in a safe direction at all times during use.
- Avoid using the tool if you are under the influence of drugs or alcohol.

## Instructions for Installation and Usage

### Installation

1. Remove the bolt from your rifle to ensure safe operation.
2. For boltaction rifles, insert the Delrin action guide into the chamber of your rifle.
3. For ARtype rifles, insert the guide into the back of the upper receiver.
4. Ensure that the tool is securely positioned before proceeding.

### Usage

1. Select the appropriate end of the tool for your caliber (17, 20, or 22 caliber and up).
2. Use your fireformed brass and bullets to ensure accurate measurements.
3. Gently push the tool forward until it touches the rifling.
4. Measure the length of the loaded round using calipers for precise BaseToOgive measurements.
5. Repeat the measurement process as necessary to ensure consistency.

## Disposal Instructions

- Dispose of any damaged or worn tools in accordance with local regulations.
- Do not dispose of the tool in regular household waste if it contains hazardous materials.
- Check with local waste management authorities for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Sinclair Bullet Seating Depth Tool, please refer to the manufacturer's contact resources or visit their official website. It is important to have access to support for any safety inquiries or product issues.

By following these safety instructions, you can ensure a safe and effective experience with the Sinclair Bullet Seating Depth Tool. Thank you for your attention to safety, and happy handloading!
