

# SINCLAIR BULLET SEATING DEPTH TOOL - SINCLAIR INTERNATIONAL 0.870" BULLET SEATING DEPTH GUIDE

[Reloading](#) > [Measuring Tools](#) > [Bullet Seating Depth Tools](#)

The Sinclair Bullet Seating Depth Tool has been used for decades by handloaders seeking the most accuracy out of their rifles. Our newest model is made from one fourth inch ground and polished stainless steel with one end turned down for use with 17 and 20 caliber rifles and the other end used for 22 caliber and up. This tool helps you determine the length of a loaded round touching the rifling. The Sinclair Seating Depth Tool will work with most bolt action, single shot and AR type rifles. The tool includes a Delrin action guide suitable for most bolt-action rifles (0.690" Diameter fits Remingtons, Savages, Winchesters, and many Rugers). For the most accurate measurement, the Sinclair Bullet Seating Depth Tool uses your fireformed brass and bullets so you can expect an exact measurement, every time. Also available are guides use in AR-15's, AR-10's, and Tubb's 2000's. The guide is a little different than our standard bolt-action guides. This guide inserts into the back of the upper receiver (with the bolt removed). The tool is then used as normal. For best results couple this tool with our Bullet Comparators and a good set of calipers to get repeatable and precise Base-To-Ogive measurements.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 0.870" BULLET SEATING DEPTH GUIDE](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001233
- Mfr. No.: 59-4870
- Action Fit: BBR, Hall, Millennium, RPA
- Diameter (in): 0.870"
- Delivery weight: 0.023kg
- Shipping height: 13mm
- Shipping width: 57mm
- Shipping length: 89mm

# Sinclair Bullet Seating Depth Tool Safety Instruction Guide

## Introduction

Thank you for choosing the Sinclair Bullet Seating Depth Tool. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the tool.

## General Safety Guidelines

- Ensure the tool is used only for its intended purpose: determining bullet seating depth in firearms.
- Always follow the manufacturer's instructions for use and maintenance.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool for any damage before each use. Do not use if any part is damaged.
- Store the tool in a safe, dry place when not in use.
- Report any unsafe conditions or incidents involving the tool to relevant authorities.

## Specific Safety Precautions for Use

- Always handle firearms in a safe manner, treating every firearm as if it is loaded.
- Ensure the firearm is pointed in a safe direction when using the tool.
- Remove the bolt from the firearm before using the Sinclair Bullet Seating Depth Tool.
- Use the tool only with compatible calibers as specified: 17, 20, and 22 caliber rifles.
- Use caution when inserting or removing the tool from the firearm to avoid injury.
- Do not use the tool in wet or damp conditions to prevent corrosion or malfunction.
- Wear safety glasses when using the tool to protect your eyes from potential debris.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the bolt from the firearm to allow access for the tool.

### 2. Using the Tool:

- Select the appropriate end of the Sinclair Bullet Seating Depth Tool for your caliber (17/20 or 22 and up).
- Insert the tool into the chamber of the firearm until it contacts the rifling.
- Carefully close the bolt on the firearm without forcing it.
- Measure the distance from the base of the cartridge to the ogive of the bullet using calipers for precise readings.
- Repeat the process as needed for accuracy.

### 3. Post Usage:

- Remove the tool from the firearm after use.
- Clean the tool with a soft cloth to remove any debris or residue.
- Store the tool in a designated safe location.

## Disposal Instructions

- Dispose of the Sinclair Bullet Seating Depth Tool in accordance with local regulations.
- Do not dispose of the tool in household waste if it is damaged or no longer usable.
- Consider recycling options for metal components if applicable.

## Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the Sinclair Bullet Seating Depth Tool, please reach out to the manufacturer or authorized distributor.

Thank you for prioritizing safety while using the Sinclair Bullet Seating Depth Tool. Your adherence to these guidelines helps ensure a safe and effective experience.
