## COLLET #4 FOR ORIGINAL CASE TRIMMER

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmer Collets](#)

The Forster Case Trimmer is one of the most versatile reloading tools available on the market today. It utilizes an extremely accurate Brown and Sharpe type collet to hold the case. Pilots are used to support the case neck during case trimming. A Collet and pilot are needed to operate this trimmer and are sold separately. Trimmer can be used for case length trimming, hollow pointing, neck turning, inside neck reaming, case mouth deburring, and primer pocket reaming (removes military crimps). The trimmer can be powered by a drill or power screwdriver by adding the Forster Power Adapter (#FPA1000).

## General Safety Guidelines

- Ensure that all safety instructions are followed to prevent accidents and injuries.
- Always inspect the trimmer and collet for any signs of damage before use. Do not use damaged equipment.
- Keep the workspace clean and free from clutter to avoid accidents.
- Use the trimmer in a welllit area to enhance visibility during operation.
- Store the trimmer and collets in a secure place away from children and pets.
- Be aware of your surroundings and avoid distractions while operating the trimmer.
- Follow local regulations regarding the use of reloading equipment.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when operating the trimmer.
- Ensure that the drill or power screwdriver used with the trimmer is in good working condition and compatible with the Forster Power Adapter.
- Do not attempt to modify or alter the trimmer or its components in any way.
- Keep hands and clothing away from moving parts during operation.
- Only use pilots and collets that are specifically designed for the Forster Case Trimmer.
- Avoid overloading the trimmer; follow the manufacturer's specifications for case types and sizes.
- If you experience any unusual sounds or vibrations during operation, stop immediately and inspect the equipment.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and components, including the Forster Case Trimmer, collet, pilot, and power adapter (if applicable).
- Ensure that your workspace is clean and organized.

### 2. Installing the Collet and Pilot:

- Select the appropriate collet (#4) and pilot for your case type.
- Insert the collet into the trimmer and secure it according to the manufacturer's instructions.
- Attach the pilot to the collet, ensuring it is firmly in place.

### 3. Setting Up the Trimmer:

- If using a drill or power screwdriver, attach the Forster Power Adapter to the trimmer.
- Connect the drill or screwdriver to the power adapter, ensuring a secure fit.

### 4. Trimming Cases:

- Place the case into the collet, ensuring it is properly seated.
- Engage the drill or power screwdriver to begin trimming. Maintain a steady hand and monitor the process closely.
- After trimming, carefully remove the case from the collet.

#### **5. PostOperation:**

- Turn off and disconnect all power sources before cleaning or storing the trimmer.
- Clean the trimmer and collets to remove any debris or residue from operation.

## **Disposal Instructions**

- Dispose of any damaged or wornout components in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.
