

# **SINCLAIR POLY LOADING BLOCK - 50 ROUND - SINCLAIR INTERNATIONAL POLY LOADING BLOCK, 50 ROUND, 10MM/40 S&W**

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These 50 round blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. The #749-001-313 block only has 32 holes due to the case head size.

## **Attributes**

- Name: [SINCLAIR INTERNATIONAL POLY LOADING BLOCK, 50 ROUND, 10MM/40 S&W](#)

# Safety Instruction Guide for Sinclair Poly Loading Block 50 Round

## Introduction

Thank you for purchasing the Sinclair Poly Loading Block. This product is designed to assist reloaders by providing a durable, easytoclean loading block. It is important to follow the safety instructions outlined in this guide to ensure safe usage and maintenance of the loading block.

## General Safety Guidelines

- Ensure the loading block is used in a wellventilated area.
- Keep the loading block away from children and pets to prevent accidents.
- Regularly inspect the loading block for any signs of damage or wear.
- Always use the loading block as intended, following the specifications provided.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only the recommended cartridges: 357 Magnum, 38 Special, 10 mm Auto, 40 S&W, and 357 SIG.
- Ensure that the loading block is placed on a stable surface during use.
- Avoid overloading the block; do not exceed the specified capacity of 50 rounds.
- Handle all ammunition with care and follow standard safety practices for reloading.
- Do not use the loading block for purposes other than loading ammunition.

## Instructions for Installation and Usage

### 1. Setting Up the Loading Block

- Place the loading block on a flat, stable surface.
- Ensure that the loading block is clean and free from debris before use.

### 2. Loading Cartridges

- Identify the correct holes for the specific cartridges you are using.
- Insert the cases into the holes, ensuring they fit securely.
- Each hole has a slight chamfer to assist in case head entry.

### 3. Cleaning the Loading Block

- The loading block is dishwasher safe for easy cleaning.
- If hand washing, use mild soap and warm water. Rinse thoroughly and air dry.
- Ensure that the loading block is completely dry before storing.

### 4. Storage

- Store the loading block in a cool, dry place when not in use.
- Avoid exposure to extreme temperatures or direct sunlight.

## Disposal Instructions

- Dispose of the loading block in accordance with local regulations for plastic materials.
- If the loading block is damaged beyond repair, consider recycling it if possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Sinclair Poly Loading Block, please refer to the manufacturer's support resources.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with your Sinclair Poly Loading Block. Thank you for prioritizing safety in your reloading practices.
