

# RELOADING DIE SHIM KITS - SINCLAIR INTERNATIONAL RELOADING DIE SHIMS, FITS 7/8"-14" DIES

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Sinclair Reloading Die Shim Kits allows you to make fine adjustments to your reloading dies quickly and easily while still being able to return to your original setting. Each shim is notched for easy size identification. Just set your die using one of the middle thickness shims, adjustments can be made easily by changing shims to increase or decrease die depth without changing the stem setting. A great upgrade to non-micrometer adjustable dies. 7/8-14 Shim Kit includes 7 Shims of varying thickness and are best used with Sizing Dies Arbor Die Shim Kits include 10 shims of varying thickness and best used with L.E. Wilson Seating Dies.

# Safety Instruction Guide for Sinclair International Reloading Die Shim Kits

## Introduction

Thank you for choosing the Sinclair International Reloading Die Shim Kits. These kits are designed to help you make precise adjustments to your reloading dies, enhancing your reloading experience. To ensure safe and effective use of this product, please read and follow the safety guidelines outlined in this document.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of reloading equipment.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using reloading tools.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of reloading die shims can lead to inaccurate reloading, which may result in dangerous ammunition.
- Sharp edges on shims may cause cuts or injuries if handled carelessly.

- **Avoiding Hazards:**

- Always handle shims with care to prevent cuts.
- Ensure that your work area is clean and free of distractions to avoid accidents.
- Do not exceed the recommended thickness adjustments as specified in the product guidelines.
- When changing shims, ensure that the die is securely fastened to prevent it from moving unexpectedly.

## Instructions for Installation and Usage

- **Installation:**

1. Identify the required shim thickness based on your reloading needs.
2. Remove the die from the reloading press.
3. Place the selected shim onto the die stem.
4. Reattach the die to the reloading press, ensuring it is securely fastened.

- **Usage:**

1. Set the die using one of the middle thickness shims.
2. To adjust die depth, change shims to either increase or decrease the depth without altering the stem setting.
3. After adjustments, always check the die setting with a test round before proceeding with actual reloading.
4. Store shims in a safe and organized manner to prevent loss or damage.

## **Disposal Instructions**

- Dispose of any damaged or worn shims in accordance with local regulations.
- Do not dispose of shims in household waste if they are sharp or hazardous; instead, follow guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of Sinclair International Reloading Die Shim Kits, please refer to the product packaging for contact information. It is important to reach out for support if you encounter any issues or have safety inquiries.

By following these guidelines, you can ensure a safe and effective reloading experience with your Sinclair International Reloading Die Shim Kits. Thank you for prioritizing safety in your reloading activities.
