

STALWART WOODEN LOADING BLOCKS - SINCLAIR INTERNATIONAL

45 ACP 50 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

Reloaders who prefer a traditional hardwood block can use our wooden loading blocks which have the same machined fit as our "Poly" blocks. Each block is machined from select hardwood and has 50 holes (except for #LB-9, which has 32 holes). Finger grooves are machined into the sides for a sure grip. See chart for ordering information.

Safety Instruction Guide for STALWART WOODEN LOADING BLOCKS

Introduction

Thank you for choosing the STALWART Wooden Loading Blocks by Sinclair International. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the loading blocks.

General Safety Guidelines

- Always use the loading blocks in accordance with the manufacturer's instructions.
- Ensure that the loading blocks are used in a safe environment, free from hazards.
- Keep the loading blocks out of reach of children and vulnerable individuals.
- Regularly inspect the loading blocks for any signs of damage or wear.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Material Safety:** The loading blocks are made from hardwood. Ensure that there are no splinters or sharp edges before use.
- **Weight Limit:** Do not exceed the recommended capacity of 50 rounds per block (or 32 for #LB9). Overloading may cause damage or injury.
- **Handling:** Use caution when handling loaded blocks. Ensure a firm grip to prevent dropping or mishandling.
- **Storage:** Store the loading blocks in a dry, safe location to prevent warping or damage.
- **Usage with Ammunition:** Only use the loading blocks with compatible cartridges (45 Auto ACP). Using incompatible ammunition can lead to malfunctions or accidents.

Instructions for Installation and Usage

1. **Placement:** Place the loading block on a stable and flat surface.
2. **Loading:**
 - Insert cartridges into the holes of the loading block, ensuring they are seated properly.
 - Do not force cartridges into the holes; they should fit snugly but not require excessive pressure.
3. **Removal:**
 - When removing cartridges, handle them gently to avoid damaging the block or the cartridges.
 - Store any unused cartridges in a secure and appropriate container.
4. **Cleaning:**
 - Clean the loading blocks with a dry cloth to remove dust and debris.
 - Avoid using water or cleaning solutions that may damage the wood.
5. **Inspection:**
 - Regularly check the loading blocks for any signs of wear, damage, or splinters.
 - If any damage is found, discontinue use and replace the block.

Disposal Instructions

- Dispose of the loading blocks in accordance with local regulations regarding wood products.
- If the blocks are damaged beyond use, consider recycling the wood if possible.
- Do not burn the loading blocks, as treated wood may release harmful substances.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the STALWART Wooden Loading Blocks, please reach out to the manufacturer's customer service or visit their official website.

Thank you for following these safety instructions. Your safety and satisfaction are our top priorities.
