

TYPE A CUSTOM DROP TUBES 22 CAL AND UP - 22 CALIBER 4"

TYPE A CUSTOM DROP TUBE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

Sinclair Custom Type A Drop Tubes are clear acrylic so you can observe your powder charge as it drops. Each drop tube is fitted with an aluminum sleeve to insure a perfect fit in your powder measure or drop tube adapter. Our .22 caliber and up drop tubes are available in 3/16" inside diameter and 4 different lengths. The longer lengths are great when you are trying to get more powder in a high fill case, especially when using longer bullets. Type A Drop Tubes will require an Adapter for use with Redding Powder measures (749-010-851) or RCBS and Hornady Powder Measures (749-002-916). Type A Drop tubes will fit directly into Niel Jones Powder Measures.

Safety Instruction Guide for TYPE A CUSTOM DROP TUBES 22 CAL AND UP

Introduction

Thank you for choosing the Sinclair Custom Type A Drop Tubes. These clear acrylic tubes are designed for safe and effective use in measuring powder charges for reloading. This guide provides important safety instructions and usage information to ensure a safe experience.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the drop tube is compatible with your powder measure or drop tube adapter.
- Keep the drop tubes out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the drop tubes before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:** The drop tubes are made of acrylic, which can break if dropped or mishandled. Powder materials can be hazardous if inhaled or contacted with skin. Use in a wellventilated area.
- **Avoiding Hazards:** Handle the drop tubes with care to prevent breakage. Do not use the drop tubes for any purpose other than intended (measuring powder). Always wear safety glasses when working with powders to protect your eyes. Ensure that your workspace is clean and free from clutter to avoid accidents.

Instructions for Installation and Usage

1. Installation:

- Ensure that the powder measure or adapter is clean and free from debris.
- Gently insert the drop tube into the powder measure or adapter. Ensure a snug fit to prevent any powder leakage.
- For Redding Powder measures, use the required adapter (Part No. 749010851).
- For RCBS and Hornady Powder Measures, ensure compatibility with the provided adapter (Part No. 749002916).
- Check that the drop tube fits directly into Niel Jones Powder Measures without additional adapters.

2. Usage:

- Pour the powder into the powder measure, ensuring that it does not exceed the recommended fill level.
- Observe the powder charge as it drops through the clear acrylic tube.
- After use, clean the drop tube to prevent powder residue buildup.
- Store the drop tubes in a safe place, away from direct sunlight and heat sources.

Disposal Instructions

- Dispose of damaged or broken drop tubes in accordance with local regulations.
- Do not throw drop tubes in regular household waste if they are broken; check for local recycling programs.
- For empty powder containers, follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the TYPE A CUSTOM DROP TUBES, please reach out to the designated contact point provided on the product packaging or visit the manufacturer's website for more information.

By following these safety instructions, you can ensure a safe and effective experience when using the Sinclair Custom Type A Drop Tubes. Thank you for your attention to safety and best practices.
