

TYPE A CUSTOM DROP TUBES 22 CAL AND UP - 22 CALIBER 8"

TYPE A CUSTOM DROP TUBE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

Sinclair Custom Type A Drop Tubes are clear acrylic so you can observe your powder charge as it drops. Each drop tube is fitted with an aluminum sleeve to insure a perfect fit in your powder measure or drop tube adapter. Our .22 caliber and up drop tubes are available in 3/16" inside diameter and 4 different lengths. The longer lengths are great when you are trying to get more powder in a high fill case, especially when using longer bullets. Type A Drop Tubes will require an Adapter for use with Redding Powder measures (749-010-851) or RCBS and Hornady Powder Measures (749-002-916). Type A Drop tubes will fit directly into Niel Jones Powder Measures.

Safety Instruction Guide for TYPE A CUSTOM DROP TUBES 22 CAL AND UP

Introduction

Thank you for choosing the Sinclair Custom Type A Drop Tubes. These drop tubes are designed to enhance your reloading experience by allowing you to observe your powder charge as it drops. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the drop tube is used only with compatible powder measures and adapters as specified in the product description.
- Always handle powder and ammunition in a safe and responsible manner to avoid accidents.
- Keep the drop tubes out of reach of children and vulnerable individuals.
- Inspect the drop tubes for any damage before each use. Do not use damaged products.
- Store the drop tubes in a cool, dry place to prevent degradation of materials.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Avoid Overfilling:** Do not exceed the recommended powder charge as this may lead to dangerous situations.
- **Use with Care:** Always ensure the drop tube is securely attached to the powder measure before use.
- **Ventilation:** Use the drop tubes in a wellventilated area to avoid inhaling any powder particles.
- **Personal Protective Equipment (PPE):** Wear safety glasses and a dust mask when handling powders to protect against inhalation or eye contact.
- **Proper Handling:** Avoid shaking or dropping the drop tubes to prevent breakage.

Instructions for Installation and Usage

1. Installation:

- Ensure that you have the correct adapter if you are using Redding Powder measures or RCBS and Hornady Powder Measures.
- For direct use with Niel Jones Powder Measures, simply insert the drop tube into the measure's designated opening.
- Make sure the drop tube is securely fitted and does not wobble.

2. Usage:

- Before filling the powder measure, check that the drop tube is clean and free from obstructions.
- Pour the desired amount of powder into the measure, ensuring that it does not exceed the maximum fill level.
- Observe the powder charge as it drops through the clear acrylic tube.
- After use, carefully remove the drop tube and clean it as required.

Disposal Instructions

- Dispose of any damaged or broken drop tubes in accordance with local waste disposal regulations.
- If the drop tube is still functional but no longer needed, consider recycling it if possible.
- Do not dispose of powders or ammunition in regular waste. Follow local regulations for hazardous

materials.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product issues, please reach out to the appropriate consumer safety authority in your region. Ensure you have the product details on hand for accurate assistance.

By following these safety instructions, you can ensure a safer reloading experience with your TYPE A CUSTOM DROP TUBES. Thank you for your attention to safety and for choosing our product.
