

## TYPE A CUSTOM DROP TUBES 22 CAL AND UP - 22 CALIBER 10"

### TYPE A CUSTOM DROP TUBE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

Sinclair Custom Type A Drop Tubes are clear acrylic so you can observe your powder charge as it drops. Each drop tube is fitted with an aluminum sleeve to insure a perfect fit in your powder measure or drop tube adapter. Our .22 caliber and up drop tubes are available in 3/16" inside diameter and 4 different lengths. The longer lengths are great when you are trying to get more powder in a high fill case, especially when using longer bullets. Type A Drop Tubes will require an Adapter for use with Redding Powder measures (749-010-851) or RCBS and Hornady Powder Measures (749-002-916). Type A Drop tubes fill fit directly into Niel Jones Powder Measures.

# Safety Instruction Guide for TYPE A CUSTOM DROP TUBES 22 CAL AND UP

## Introduction

Thank you for choosing the TYPE A CUSTOM DROP TUBES. This guide provides important safety instructions and usage guidelines to ensure safe handling and operation of the product. Please read this manual carefully before using the drop tubes to maximize safety and performance.

## General Safety Guidelines

- Ensure that the drop tubes are used only for their intended purpose.
- Always handle the drop tubes with care to avoid damage.
- Keep the drop tubes out of reach of children and vulnerable individuals.
- Regularly inspect the drop tubes for any signs of wear or damage before use.
- If any damage is found, do not use the drop tubes and dispose of them properly.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always use the drop tubes in a wellventilated area to avoid inhaling any powder particles.
- Avoid overfilling the powder measure to prevent spills and potential hazards.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling powders.
- Ensure that the drop tube is securely fitted into the powder measure or adapter before use.
- Never look directly into the drop tube while powder is being dispensed.
- Keep the drop tubes clean and free from obstructions to ensure proper functioning.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the powder measure is placed on a stable and flat surface.
- Select the appropriate Type A Drop Tube based on the caliber and desired length.
- Insert the drop tube into the powder measure or adapter, ensuring a snug fit.
- If using with Redding Powder measures, ensure you have the required adapter (749010851).
- For RCBS and Hornady Powder Measures, ensure you have the appropriate adapter (749002916).

### 2. Usage:

- Measure the desired amount of powder into the powder measure.
- Activate the dispensing mechanism according to the manufacturer's instructions.
- Observe the powder charge as it drops through the clear acrylic drop tube.
- After dispensing, ensure that the drop tube is clear of any remaining powder before storing.

## Disposal Instructions

- Dispose of any damaged or worn drop tubes in accordance with local regulations for acrylic materials.
- Do not dispose of powders or any hazardous materials in regular waste. Follow local disposal guidelines for hazardous substances.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with your product. You can also check for updates and recall information on the EU's Safety Gate platform.

By following these instructions, you can ensure the safe and effective use of the TYPE A CUSTOM DROP TUBES. Thank you for your attention to safety and compliance.
