

# TYPE A CUSTOM DROP TUBES 17/20 CAL - 17/20 CALIBER 4" TYPE A CUSTOM DROP TUBE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

Sinclair Custom Drop Tubes are clear acrylic so you can observe your powder charge as it drops. Each drop tube is fitted with an aluminum sleeve to insure a perfect fit in your powder measure or drop tube adapter. Our .17/.20 caliber drop tubes are available in 4" length and 0.188"" inside diameter. Type A Drop Tubes will require an Adapter for use with Redding Powder measures (749-010-851) or RCBS and Hornady Powder Measures (749-002-916). Type A Drop tubes will fit directly into Niel Jones Powder Measures.

# Safety Instruction Guide for TYPE A CUSTOM DROP TUBES

## Introduction

Thank you for choosing the TYPE A CUSTOM DROP TUBES for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before using the drop tubes.

## General Safety Guidelines

- Ensure that the drop tubes are used only for the intended purpose of measuring and dispensing powder.
- Always inspect the drop tubes for any signs of damage or wear before each use.
- Keep the drop tubes out of reach of children and vulnerable individuals to prevent accidental harm.
- Use the drop tubes in a wellventilated area to avoid inhalation of any powder particles.
- Do not modify the drop tubes or use them in a manner not specified by the manufacturer.

## Specific Safety Precautions for Use

- Caliber Compatibility: Ensure that you are using the correct caliber drop tube for your reloading needs (17 Caliber or 20 Caliber).
- Adapter Requirement: Use the appropriate adapter when connecting the drop tubes to Redding, RCBS, or Hornady powder measures to ensure a secure fit.
- Observe Powder Charge: The clear acrylic design allows you to observe the powder charge as it drops. Always monitor this process to prevent overfilling.
- Avoid Direct Contact: Do not place your face or body in close proximity to the drop tube while in use to avoid accidental powder exposure.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary equipment, including the drop tube, powder measure, and any required adapters.
- Ensure your workspace is clean and free from clutter.

### 2. Installation:

- If using with Redding Powder measures, ensure you have the adapter (part number 749010851).
- For RCBS and Hornady Powder measures, use the adapter (part number 749002916).
- Insert the drop tube into the powder measure or adapter until it fits snugly.

### 3. Usage:

- Pour the desired amount of powder into the powder measure.
- Gently operate the powder measure to dispense the powder through the drop tube.
- Observe the powder charge as it drops to ensure accuracy.
- After use, remove the drop tube and clean it as necessary.

## Disposal Instructions

- Dispose of any broken or damaged drop tubes in accordance with local regulations for plastic waste.
- If the drop tubes are no longer needed, consider recycling them if possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the TYPE A CUSTOM DROP TUBES, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website for support.

## **Conclusion**

Following these safety instructions will help ensure a safe and effective reloading experience with your TYPE A CUSTOM DROP TUBES. Always prioritize safety and stay informed about best practices in handling and using reloading equipment. Thank you for your attention to these important guidelines.
