

SINCLAIR POLY LOADING BLOCK - 50 ROUND - SINCLAIR INTERNATIONAL POLY LOADING BLOCK, 50 ROUND, 338 LAPUA/45-70 GOV'T

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These 50 round blocks are 3/4" thick to provide deeper holes for your cases to sit in, great for short to medium length cartridges. The #749-001-313 block only has 32 holes due to the case head size.

Poly Loading Block - 50 round, 338 LM, 378 Wby, 45-70

Safety Instruction Guide for SINCLAIR POLY LOADING BLOCK 50 ROUND

Introduction

Thank you for choosing the SINCLAIR POLY LOADING BLOCK 50 ROUND. This product is designed to safely hold and organize ammunition for various cartridges, including 4570 Government, 348 Winchester, 416 Rigby, 378 Weatherby Magnum, 460 Weatherby Mag, 4065 Winchester, and 338 Lapua Mag. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this manual.

General Safety Guidelines

- Always use the loading block in accordance with the manufacturer's instructions.
- Keep the loading block out of reach of children and unauthorized persons.
- Inspect the loading block for any damage before use. Do not use if damaged.
- Store the loading block in a cool, dry place away from direct sunlight.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the loading block is used only with compatible cartridges.
- Do not overload the loading block beyond its capacity of 50 rounds.
- Avoid using the loading block in wet or damp conditions to prevent degradation of the material.
- Handle the loading block with care to avoid dropping or damaging it.
- Do not modify or alter the loading block in any way.
- Always supervise the use of the loading block, especially around children or inexperienced users.

Instructions for Installation and Usage

1. Unpacking the Loading Block

- Carefully remove the loading block from its packaging.
- Inspect the block for any visible damage or defects.

2. Setting Up the Loading Block

- Place the loading block on a flat, stable surface.
- Ensure the loading block is clean and free from any debris before use.

3. Loading Ammunition

- Identify the appropriate slots for the cartridges you will be using.
- Insert the cartridges into the loading block, ensuring they are seated securely.
- Do not force cartridges into slots that do not fit properly.

4. Using the Loading Block

- Use the loading block to organize and store your ammunition.
- When transporting, ensure the loading block is secured to prevent movement.

5. After Use

- Remove all cartridges from the loading block when not in use.

- Clean the loading block if necessary, following the manufacturer's recommendations.

Disposal Instructions

- Dispose of the loading block in accordance with local waste management regulations.
- Do not dispose of the loading block in regular household waste if it is damaged.
- Consider recycling if the material is accepted in your local recycling program.

Contact Information for Further Support

For further assistance or inquiries regarding safety concerns, please reach out to the manufacturer or authorized dealer. Always ensure that you have the latest information regarding product safety and recalls.

By following these guidelines, you can ensure a safe and effective experience with your SINCLAIR POLY LOADING BLOCK 50 ROUND. Thank you for your attention to safety!
