

# STALWART WOODEN LOADING BLOCKS - SINCLAIR INTERNATIONAL WEATHERBY MAGNUMS 50 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

Reloaders who prefer a traditional hardwood block can use our wooden loading blocks which have the same machined fit as our "Poly" blocks. Each block is machined from select hardwood and has 50 holes (except for #LB-9, which has 32 holes). Finger grooves are machined into the sides for a sure grip. See chart for ordering information.

# STALWART WOODEN LOADING BLOCKS SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the STALWART Wooden Loading Blocks from Sinclair International. This guide provides essential safety instructions to ensure the safe and effective use of your loading blocks. Please read this document carefully before using the product.

## General Safety Guidelines

- Always ensure that the loading blocks are used in a safe environment, free from distractions and hazards.
- Keep the loading blocks out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the loading blocks for any signs of damage or wear. Do not use if damaged.
- Store the loading blocks in a dry place to prevent warping or degradation of the wood.
- Follow all local laws and regulations regarding the handling and storage of ammunition components.

## Specific Safety Precautions for Use

- Ensure that the loading blocks are used only for the specified cartridges: 338 Lapua, 4570 Government, and 378 Weatherby Magnum.
- Do not exceed the recommended capacity of 50 rounds (or 32 rounds for #LB9) to avoid damage or injury.
- Always handle ammunition with care, following proper safety protocols.
- Use gloves if necessary to avoid splinters from the wooden blocks.
- Do not modify the loading blocks in any way, as this may compromise their safety and functionality.

## Instructions for Installation and Usage

### 1. Placement:

- Place the loading block on a stable and flat surface to ensure it does not tip over during use.

### 2. Loading:

- Insert the rounds into the holes of the loading block, ensuring they are seated securely.
- Use the finger grooves on the sides of the block for a secure grip while handling.

### 3. Unloading:

- Carefully remove the rounds from the loading block, taking care to avoid dropping or mishandling them.
- Store any unused rounds in a safe and secure manner after unloading.

### 4. Maintenance:

- Clean the loading block periodically with a dry cloth to remove dust and debris.
- Avoid using harsh chemicals or cleaners that may damage the wood.

## Disposal Instructions

- When the loading block is no longer usable, dispose of it in accordance with local regulations regarding wood waste.

- Do not burn the loading block as it may release harmful substances.

## Contact Information for Further Support

For any safety inquiries or to report unsafe products, please contact the appropriate local authorities or visit the EU Safety Gate platform for updates on recalls and safety notices.

By following these guidelines, you can ensure your safety and the effective use of the STALWART Wooden Loading Blocks. Thank you for your attention to these important safety instructions.
